VOL. X. NO. 131. CHARLEROI, WASHINGTON CO., PA., FRIDAY, JANUARY 21, 1910. One Cent

## CHARLEROI LUMBER CO. GETS IMPORTANT CONTRACT

### Will Build Fifty-Nine Houses at Fredericktown and Ten Near Coal Center for Vesta Coal Company.

### BUILDINGS UP-TO-DATE IN EVERY WAY

The Charleroi Lumber company has been awarded a contract for the erection of 69 houses by the Vesta Coal company, and work will be begun on the excavations the first of next week. The buildings will be erected at Fredericktown and Hood's Run, near Coal Centre and the entire contract price is approximately $150,000.

There will be 59 houses erected at Fredericktown, where the Vesta Coal company has opened the Vesta No. 5 mine. These will consist of three superintendent's houses, eight rooms and bath with electric lights, each to cost about $3,500; 10 12-room double blocks, with bath and electric lights; 20 eight room blocks, bath and electric lights: 10 four-room blocks, baths and electric lights; and 16 one story miners houses without the baths. At Hood's Run there will be 10 miner's houses erected.

The structures at Fredericktown will be located on what is known as the Litzenburg farm, between Fredericktown and Centerville. As will be noticed they are to be up-to-date in every respect and in reality an innovation for miner's houses. The plumbing contract has been awarded to Regan and Hormell of Charleroi, and the wiring contract to A. D Spencer of Charleroi.

## SAYS PAPERS KNOCK INSTEAD OF BOOST BRIDGE PROJECT

Regarding the proposed free bridge between Belle Vernon and Speers, the Belle Vernon Enterprise in its issue today says editorially:

"The press of Washington county seems very anxious to give the Belle Vernon bridge a black eye, and particularly is this true of the papers at the county seat. The Observer seems to take great delight in proposing reforms, but we believe some of these things should have taken place when certain men were in power, and not waited until after the tidal wave in political life had laid them on the beach. Hon. E. F. Acheson, in an address at the dedication of the free bridge at Monongahela, said "the next bridge to be made free should be the one at Belle Vernon." There were no strings to his statement. There were no ifs and ands about it. And his statement was received with applause because those present felt the justness of his remarks.

"We do not consider it just for the pres, to try to poison the minds of the viewers. These men ought to be free and unbiased. It is their duty to come here with no scales on their eyes or minds made up in advance. The borough of Speers deserves considerate treatment. Their money has gone into the coffers of the county and they have helped pay for many of the bridges over the county streams. Some of her residents have never crossed even one of the bridges over such streams and possibly never will. But you never heard them kick. The same can be said for Belle Vernon.

"Brother. of the press, don't be knockers—be boosters for the progressive cause. Let the viewers, who are, we believe, men of brains, decide the issue. We will have to abide by their decision, but we want them to decide after viewing the structure and not before. Our people are almost a unit for a free bridge. It is our just due."

### Social.

The Golden Rule Class of the First Christian Church will hold a social in the basement of the church on Friday evening at 7 o'clock. Admission 10 cens. Coffee, cake and ice cream will be served. 128t4

## PITTSBURG TRADES COUNCIL PLACES BOYCOTT ON MEAT

Iron City Trades Council at Pittsburg last night adopted a resolution which calls for a boycott of the meat trust and declaring that if conditions are not bettered at once all members of local trade unions shall pledge themselves to abstain from the use of meat for 30 days A part of the resolution follows:

Resolved, That all members of local trade unions and organizations affiliated with this be called upon to declare a boycott against the meat trust by refusing to eat meat for a period of 30 days, unless there is a decided amelioration of the deplorable conditions regarding the price of this commodity, and that all members use their endeavors to secure others not affiliated with local organizations to do likewise.

The Washington Trades Council has already declared a boycott on meat and it is expected that every other trades council in this district will take the same action.

## ALLEGHENY COUNTY CONTROLLER THINKS POSSIBLE INCREASE

In the opinion of county controller Robert J. Cunningham of Allegheny, it will be necessary this year to increase the millage a quarter and possibly a half mill. The total millage last year was 2 3-4 mills, divided as follows: Current expenses, 1 3-4 mills; road, 1-2 and 1-2 for the poor, which gives the above total of 2 3-4 mills.

The increase in valuation over last year amounts to but $24,000,000. The total county valuation last year was $1,066,000,000. This year it is $1,090,000,000.

### Snared Rabbit, Paid $50.

It cost Anglo Thormassi of Washington $50 and costs at a justices hearing for snaring one rabbit. Traps had been discovered south of the county seat by Game Warden Eugene Teinbold, who kept a watch, and it was alleged, saw Thomassi take a rabbit from one of them

Frank Arrison was a visitor with friends in Monongahela last evening.

## OFFICIALS OF HOSPITAL MAKE THEIR REPORT

### Institution Proving Its Worth for People of Upper Monongahela.

### CHARITY WORK BEING DONE

Many persons have said that they would like to know what the Monessen-Charleroi hospital is doing. Some are interested only from curiosity, while others are acting in good faith. The board of directors are acting in good faith and feel that, in a measure, their labors in the cause of humanity are appreciated. There is nothing in the management anywhere to cover up, as at a recent meeting of an auditing committee every dollar—yes, every cent—was accounted for. This committee reported that under the management of Miss Rebecca Miller of Scottdale the hospital was doing good work. and with the people of Charleroi, Monessen and Belle Vernon working for it, the success of the institution is assured. The hospital opened in April, 1909, and up to January 1, 1910, the receipts from patients amounted to almost $3,000 or to be exact, $2,974.20. During the spare time Miss Miller kept her books in proper shape and paid out for salaries and wages $1,238 65, house expenses $1,300.91, other expenses, which were itemized, $434.64.

May 1 there were seven patients in the hospital. During May there were 20 admitted; 14 were dicharged and 8 died. Taking the totals for the nine months there have been over 200 patients admitted for treatment, 150 discharged and 27 died. Of the latter there were a number of accidents which proved fatal within 24 hours.

The contributions, in money, have not come up to the expectations of the promoters. The treasurer's report shows that they only received from all sources $1,503.73. He paid out $1,460.93, leaving in his hands as cash $42.80.

The books show that the bills outstanding amount to only $1,335.05. while the accounts receivable amount to close to $500. With the amount done for charity charged there would be practically no deficiency. This we consider a good showing, and invite all to resolve in the new year to lend a willing hand.

H. R. Pore, Pres.
E. C. Niver, Sec.

## UNION NEWS CO. MAY PLACE BRICK STRUCTURE HERE

William H. Keller, superintendent of the Union News company, which had contemplated locating a stand on the corner of McKean avenue and Fifth street, was in Charleroi yesterday to look after the matter and ascertain the advisability of constructing a brick structure. Council at a meeting the fore part of this week took action to the effect that the wooden structure which the News company had shipped here be not allowed.

Mr. Keller was of the opinion that the News company would construct a brick veneer structure, to face on Fifth street. He considered the town a good place for such a stand.

## COMING PRIMARY DOES NOT RAISE PROPER INTEREST

Very little interest is manifested in the primary election to be held tomorrow, in spite of the fact that important offices are to be filled in the borough, for which the primary will have largely to do. Justice of the peace seems to be the only place which will be contested there being a number out. While there seems to be as far as can be learned no real favorite, each one of the candidates has a following of friends. The officers of council and school directors will claim some attention.

FOR SALE—Five head of work horses and one driver. Floyd Bonnell. Call Charleroi 'phone. 129t3p

## ACTIONS OF OTHER TOWNS APPROVED BY LOCAL PEOPLE

### Some Charleroi Citizens Would Also Place Boycott on Meat.

### OTHER STAPLES COME HIGH

There is an undercurrent of feeling against the present high prices of meat in Charleroi, and aroused by the action people of other towns and cities are taking, may develop into some action here if nothing more than a tacit agreement to abstain from eating the product. Since certain cities over the country have taken action to boycott meat, on account of the prevailing high prices prominent citizens of this place have begun to consider the feasibility of such a plan, and some have already formed a pact among themselves to stop eating meat. The latest place where action was taken to boycott meat was in Pittsburg last night. This week the Washington trades council took up the matter and action is likely to follow.

The meat men declare that if people should abstain from eating meat for a year, it would not affect them at all. However a feeling of nervousness is noticeable. It is not alone the meat on which prices have been aeroplaned but on other staples as well.

## CONNELLSVILLE WANTS APPROPRIATION FOR CRAWFORD MONUMENT

A $50,000 Federal appropriation for Connellsville is proposed by Congressman Cooper in a bill introduced in the House yesterday at the National capital. The money is desired for the erection of a monument to the memory of Colonel William Crawford of the Braddock Expedition, who is described as "a Revolutionary patriot, the trusted friend of George Washington and commander of the expedition against the Wyandotte Indians living upon the Sanduksy River, in the northwestern part of what is now the State of Ohio."

The House is further informed that Colonel Crawford "was captured by the Indians and burned at the stake on July 11, 1782." The monument is to bear suitable inscriptions, emblems and devices "to perpetuate the memory and to commemorate the services and patriotic sarifices made by Colonel Crawford."

The Secretary of War is named to supervise the work and make the necessary allotment of money from time to time.

## COUNTY HOME OFFICIALS INFORMED THEY MUST FIX SANITARY ARRANGEMENTS

John J. Oates of Charleroi, a representative of the State Health Department, notified the county poor board and Superintendent John W. Quivey of the county home that some immediate action must be taken in regard to the disposal of waste for that institution or the State Department would do the work at the expense of the county.

The notice, which comes from Samuel G. Dixon, State Health Commissioner, states that the proper authorities of the county must abate within ten days the direct orindirect pollution of natural water courses by drainage from the county home.

### Notice to the Public.

We have been informed that certain persons are going around soliciting an exchange of our premium tickets for the S. and H. green trading stamps, stating that we have discontinued giving our premium tickets. No such action has been authorized by us as we still continue giving our premium tickets. Our tickets are worth 5 cents on the dollar for any one of our premium articles and will be redeemed by us at their value.

129t2 J. W. Berryman and Son.

WANTED—Girl for general housework. Apply 419 McKean avenue. 130t2

## THOMAS L. LEWIS WINS WITH A LARGE MAJORITY

### For Third Time is Elected National President of the United Mine Workers—Tellers Finish Work.

### PENNSYLVANIANS NAMED ON COMMITTEES

As forecasted in the Mail of Wednesday Thomas L. Lewis has for the third time been elected National President of the United Mine Workers. Yesterday the tellers at Indianapolis, where the National scale convention is in session, completed the count, and they announced today that Mr. Lewis is elected president by a majority of 23,597 over his opponent, William Green of Ohio. Two years ago, when John Mitchell stepped down and out, it had been previously arranged to hand the office to Congressman W. B. Wilson of Pennsylvania, who was the secretary-treasurer. The entire administration batteries were turned on Lewis, but he pulled through by a margin of about 2,500, the official count not being made known until the last day of the convention. Last year John Walker, the Illinois leader, was pitted against Lewis, but the latter went under the pole with about 17,000 to the good.

From this time on it is expected the convention will get down to real business. The miners' work must be finished by February 1, so they can present their demands to the operators on that date.

The Pennsylvanians on the standing committees of this convention are: Officers' reports, John Sullivan and W. E. Patterson; constitution, Fred Ledvinka and Thomas M. McClement; resolutions, S. A. Whetzel; scale, Patrick Gilday and Francis Feehan.

## BIG COAL COMBINE MAY DISCONTINUE RIVER SHIPPING

At the annual meeting of stockholders the Monongahela River Consolidated Coal and Coke company at Pittsburg this week J. B. Finley, A. W. Mellon, Alexander Dempster, John A. Bell, David B. Oliver, Harry R. Rea, George W. Theiss and J. Denniston Lyon were elected directors.

The annual report of the company showed a net loss of $376,155.73, due to the New Orleans cyclone. President Theiss said that had it not been for this loss which was a little in excess of $700,000, between $350,000 and $400,000 would have been passed to the surplus fund for distribution in dividends. The salvage from the sunken coal is expected to reach at least $200,000 so that the loss will not be as great as it was at first supposed.

The report also shows that it had a net surplus of $1,600,552.33 October 31 last, after deducting a dividend of $125,000 paid last January and its net loss for the year.

The question of the company giving up the New Orleans trade was discussed informally. The reason for this was because of the heavy loss sustained by the company early last fall, when a hurricane prevailed in the coast country and which sank several hundred coal boats loaded with fuel, and competition from the Alabama coal fields. Because of this the shipments from this section have declined greatly in recent years.

George W. Theiss. president of the company said the trade could be dropped were it not for the fact that the company had $4,000,000, invested in floating property and coal elevators depots. The local coal consumption, Mr. Theiss said, had increased, and especially the rail business, the company shipping much coal to the lakes and Canadian points. It was stated that a contract made with the Carnegie Steel company has 21 years yet to run and this concern takes about one-third of the total output of the company's mines.

The question of finding a market for coal to be used in products also was discussed. Much coal is used in coal tar, vaseline made from coal tar, gas, etc.

## CHARLEROI PEOPLE ATTEND RALLY OF LUTHER LEAGUE

Twelve mermbers of the Charleroi Lutheran League of Christ Lutheran church went to Monongahela last evening to attend a league rally, held by the Pittsburg Extension Committee of the Central Luther League and the Tri-Luther League of the valley. The rally which was held at the Grace Lutheran church was well attended, and four societies were represented, Charleroi, Monessen, Monongahela and Scenery Hill, besides visitors from Pittsburg and other places. Rev. W. E. Bauer of Pittsburg made the principal address. J. McFranks of the Pittsburg Extension made a report of the preparations being made for the National Lutheran League in Pittsburg next fall. At this convention music will be a feature. A social hour followed the rendition of the program.

### Not a Candidate.

Although my name will appear on the Republican ticket as a Republican candidate for the nomination of justice of the peace at the primary election Saturday, I desire to inform my friends and the public generally that I am not a candidate for the nomination. My name was suggested but I neglected to have it withdrawn until too late.

130t2 F. P. McCloskey.

### Surprise Party.

A number of the friends of Edward and Herbert Steinman tendered them a surprise at their home on Fallowfield avenue last night. The party was quietly arranged so that the two young fellows had no intimation of it until the crowd "just dropped in." The evening was enjoyably spent with various social diversions and light refreshments were served. There were about thirty present.

### Notice.

The American Cleaning and Dyeing works of Thompson avenue, Donora, will be continued under the management of C. J. Kinney, of Steubenville, Ohio. All persons having accounts against the firm will present them for payment, at 626 Thompson avenue, Donora. 130t3

J. K. Toner, Pres. S. A. Walton, Vice Pres. R. H. Rush, Cashier.

**Why is it better to pay by check?**

THE 1ST NATIONAL BANK CHARLEROI, PA.

You do not run the risk of loss or overpayment when you pay by check, as you do in paying in currency.

A check that has been paid by the bank is the best possible receipt.

Besides it is so convenient and inexpensive to send your check by mail.

Accounts, subject to check, cordially invited.

## The Meat Boycott.

Probably not since the protest against the tax on tea in pre-Revolutionary times, has this country witnessed the spectacle of thousands of people abstaining from a necessary food product as a protest against prices. In colonial times the British government imposed a tax on tea which the American people resented by declining to use the tea and destroying all the imports that were available. One hundred and thirty-seven years later the American people, because of the power permitted sundry combinations of capital to control the distribution of food products, are pursuing the same tactics as their forefathers in refusing to be a party to the rapacity of arbitrary power. They have now reached a condition where they are willing to forego personal comfort in support of a principle.

Just as the Boston Tea Party foretold the deluge, so is the present movement portentious in sociology. When the people rise en masse and are ready to undergo self-sacrifice and personal denial in support of a principle, something is going to happen. The people are now thinking along one line, and when they do that the causes for the complaint are pretty sure to become thoroughly discussed and recognized. Then action will follow. It is the indifference of the people that has permitted this condition to prevail, and now that they are reaping the whirlwind, they are aroused to the dangerous pitch of resistence. This is the most hopeful sign of the times in the interests of civic betterment that has yet appeared, and results sooner or later are bound to be achieved.

## Why It Failed.

Because of a news article that has been going the rounds concerning an alleged project of Allegheny county to try to acquire a strip of Westmoreland county along the Allegheny river, some of our contemporaries have become solicitous lest Charleroi make another try for a new county embracing the Monongahela valley. They devote considerable space to showing how such a project is impossible under the constitution, yet between the lines one can read that they are not quite sure of the truth of their assertions. The Connellsville Courier, in commenting on the improbability of the matter, says: "Charleroi people tried this game once and failed miserably. We do not believe they will attempt it again, but if they do, they will undoubtedly fail again."

As the Courier states, the attempt was made and failed, but not miserably, because it was all but accomplished. Every requirement and condition had been met—constitutional provisions and all—and the project fell through solely on account of a political exigency. Unfortunately the fight between the late Senator Quay and Governor Hastings for political supremacy in the State was precipitated, and but for this Monongahela county, with Charleroi as the county seat, would have been an established fact. In his extremity Senator Quay needed the three Fayette county delegates in his State chairmanship fight, which the late Frank Fuller of Uniontown had to deliver, and he got them only on condition that Fayette county would be eliminated from the new county division. That was why the project failed at the time.

## A Good Move.

The move on the part of the borough school board and superintendent of schools to add another year to the high school course is a good one. The three year course has been good so far as it goes, but experience has demonstrated that it does not go quite far enough to meet all requirements. It does not require any effort or logic to convince the public and school patrons that a four year high school course will give more training and mental discipline to students when they need it most, and better equip them for the duties of life than a three year course.

In addition to preparing students to enter college, which is an important feature, owing to our proximity to W. and J. College, the extra year in the practical course is most valuable. Many people cannot afford to send their children to college, but they can take advantage of high school courses. This of itself is ample reason for extending the course. An extra year's training at the high school at the time it is given saves the student a whole lot of hard and costly experience later on in life. The move is a wise one, and the school board and the superintendent are to be congratulated on their progressiveness.

## ELECTRIC SPARKS

If people quit eating meat they can hope for better health and their stomachs will not have to work overtime beating the tar out of a lot of gristle and tough, rare steak.

The help millionaires and millionaires daughters give to the working class is as a rule of the politic kind, to get a name for philanthropy.

After all has been said and done and Green elected more times than one can count, the official votes prove conclusively that Lewis is the president of the United Mine Workers.

Those who conduct the Spanish swindle game have nothing on some fellows that have infested Charleroi except in the daring audacity of demands.

First thing we know the government will take up a battle against the trusts and show them who's boss.

If some men were not so everlastingly generous they would not get in to three-fourths the trouble they do.

The popular nature of the debate of today should be, How can a working man live on small salary, and buy clothes for his wife, when he has to pay more than he earns for victuals?

## Will Sing at Monongahela.

Mrs. James Schnelbach, one of Chareroi's best vocalists and a pupil of Porf. Knotts of Pittsburg has been secured as contralto in the Monongahela Presbyterian church choir. Mrs. Schnelbach will take her new position on Sunday, January 30.

### Worshiping a Turtle.

At a place called Kotron, on the French Ivory Coast, the natives believe that to eat or destroy a turtle would mean death to the guilty one or sickness among the family. The fetich men, of which there are plenty, declare that years ago a man went to sea fishing. In the night his canoe was thrown upon the beach empty. Three days afterward a turtle came ashore at the same place with the man on its back alive and well. Since that time they have never eaten or destroyed one of that species, although they enjoy other species.

If one happens now to be washed ashore there is a great commotion in the town. First the women sit down and start singing and beating sticks, next a small piece of white cloth (color must be white) is placed on the turtle's back. Food is then prepared and placed on the cloth, generally plantains, rice and palm oil. Then, amid a lot more singing, dancing and antics of the fetich people, it is carried back into the sea and goes on its way rejoicing.

### What Thieves Won't Steal.

The last thing the woman did before leaving the flat was to put four rings in the clock on the mantel. "So thieves won't get them," she said.

"I should think that would be simply inviting thieves to run away with them," said her friend. "That is a handsome clock, and thieves like handsome clocks."

"They do," said the woman, "but they never will steal this clock. It ticks too loud. No wise thief will run away with a clock that goes like a thrashing machine. It isn't the alarm about his person that he is afraid of, for he can stop the clock, but the occupants of the flat are likely to return before he gets safely away, and if a loud ticking clock is gone they will miss it the minute they step inside the door and maybe give him a hot chase for his plunder."—New York Press.

## FALLING HAIR

### You Run No Risk When You Use This Remedy.

While many people in their prime doubt the assertion that "the hairs of our head are numbered," yet there is today many a man and woman fast reaching the point where this statement is literally brought home to them. If you suffer from irritation of the scalp, and from dandruff, or if your hair is falling out, do not wait until you reach the point where you can actually count how many hairs are left on your head.

Most cases of baldness are caused because the roots lack proper nutrition. In such cases there is a microbe which bores through the scalp along the line of the hair into the root and when it lodges there it begins to destroy the fatty matter around the hair root. When the scalp and hair roots are strong and healthy, it is impossbile for these microbes to get in their deadly work.

We can promise you that, if your hair is falling out, and you have not let it go too far, you can repair the damage already done by using "Rexall 93" Hair Tonic. It is scientific, cleansing, antiseptic, germicidal preparation, that destroys microbes, stimulates good circulation around the hair roots, promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water, and it is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall "93" Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices 50 cents and $1.00. Remember you can obtain it only at our store—The Rexall Store. John W. Carroll.

## DON'T BE OLD

### You will Not Be if You Follow this Simple Plan.

The woman of forty-five should be just in full bloom and her maturer beauty should resist the inroads of Time for many years thereafter. But this is possible only when the delicate skin of the face has been put in perfect condition. A sure healing and cleansing skin-food, of which Crown Cream is undoubtedly the best on the market will work wonders, even with a neglected complexion, when used in connection with correct massage. And that is not only possible, but very easy, for the woman who owns the remarkable massage appliance called the Harlan Beauty Cup. This is a most ingenious vacuum appliance made of pure Para rubber and gives much better results than are possible with manipulation of the delicate skin texture by the fingers.

While every user of Crown Cream knows that it alone will work wonders, driving away wrinkles, restoring complexions to their youthful beauty and improving the health of the skin in every way, yet by the use of the Beauty Cup these desirable results are hastened and made permanent. Not only is massage made easy, but there is no danger of injury to a delicate skin from unskillful fingers. The Harlan Beauty Cups are sold by all good dealers at the regular price of 50c each and this is also the price of Crown Cream. If your dealer is not now supplied, they will be sent, prepaid, upon order direct to the Harlan Mfg. Co., Toledo, O. Enclose the exact price and give your dealer's name also.

### Skin Diseases Readily Cured by a Simple Home Treatment.

Persons who are suffering from blackheads, pimples, dandruff, eczema, tetter, ring worm, or any form of skin disease, often ask the question, "is there a cure?"

We, Piper Bros. the druggist ssay, "yes, there is a cure." ZEMO, a scientific, clean, liquid preparation for external use, gives prompt relief and permanently cures every form of skin and scalp disease, whether on infants or grown persons. We will show you proof of many remarkable cures made by ZEMO and will gladly explain to you how you can be cured by this clean, simple home treatment. Piper Bros.

### Going to Tennessee.

Mr. and Mrs. Harvey F. Parsons leave Saturday morning for Lawrenceburg, Tenn., where they will make an extended visit with Mrs. Parsons' parents, Mr. and Mrs. Robert McNeal. They will for the present make their home in Tennessee. Mr. Parsons will still do bookkeeping and accountant work and take with him a month's work.

By a large rock on the northbound track near Bamord this morning the train due here at 8:18 o'clock was held back several minutes, arriving at about 9 o'clock.

# OWES HER LIFE TO

### Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was troubled with falling and inflammation, and the doctors said I could not get well unless I had an operation. I knew I could not stand the strain of one, so I wrote to you sometime ago about my health and you told me what to do. After taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier I am to-day a well woman."—Mrs. WILLIAM AHRENS, 988 W. 21st St., Chicago, Ill.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

**If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.**

# MORE BANK TALK

Did it ever occur to you why all good business men keep a checking account with a bank? We'll tell you. It enables them to keep their funds in a more secure place than the office safe. It gives them a better standing in the business world. It enables them to pay their bills by check, the returned check being an undisputable receipt.

Individuals find a checking account very convenient and a source of saving. Money in one's pocket is often spent on the spur of the moment, while one is disposed to think twice before drawing on his balance in the bank. Get the Savings Habit. Lay up for a rainy day. Start a bank account with the

## RELIGIOUS THOUGHT.

**Gems Gleaned From the Teachings of All Denominations.**

Patience is as a case of armor around the heart, which deadens the blows inflicted on it.—Rev. J. B. Remensnyder, Lutheran, New York.

**Valuable Essential.**

Self control is an essential to manhood, and the only way to change your disposition is to bridle your conduct.—Rev. Robert Gordon, Baptist, Milwaukee.

**Facing the Future.**

We should fearlessly face the future, knowing that God can turn even the follies and the failures of the past into a certain sort of good to us. Rev. A. W. Snyder, Presbyterian, New York.

**Life's Foundation.**

Human life is itself the great tradition. It was handed down through parenthood, and when the parenthood is worthy the tradition is divine.—Rev. George A. Gordon, Congregationalist, Boston.

**Good Will.**

If you are sure of the good will in your own heart you will surely find it in God, in man, everywhere, and you will be able to see that the sun is shining, all nature is fair and friends are kind.—Rev. A. G. Sinnsen, Presbyterian, Providence, R. I.

**Unending Joy.**

This life is but a time of preparation for a life of unending joy and bliss. This is the lesson we are to learn today—that heaven is to be gained only through suffering; unending joy is to be purchased with the coin of sacrifice. First the cross, then the crown.—Rev. David J. Toomey, Roman Catholic, Boston.

**The Golden Age.**

Eternity we recognize as our inexhaustible treasure house, and through our hope, as through a window, we catch glimpses that inspire. Its thought is inspiration; its gleam is strength. The golden age is not back yonder, but ever before us. We keep our eyes on the sun, and the shadows of earth are kept behind us, and our eyes glow with the sunlight. When hope falls the man dies.—Rev. Dr. Wallace Radcliffe, Presbyterian, Washington.

**Getting Right With God.**

Get right with God, then, eternal source of all joy, for it is his joy that you must share to be joyous in very truth. The God centered man is always happy, for God's will becomes the orbit in which he moves. As God's revelation in the sun is the center of the solar system, so is God's revelation in Christ the center of the human system. Let Jesus prescribe thine orbit, then thou art ever in the light of God's face.—Rev. Dr. Robert MacDonald, Baptist, Brooklyn.

**Value of the Physician.**

Few appreciate the ministry and value of the physician. His task is Christlike in self sacrifice, opportunity and often in its thankless return. The first to be called in danger, he is the last to be paid among our creditors. He treads close to the Son of Man in life's highways, often doing heroic service in epidemics and benevolent service for the poor, and receives no man's "well done" and but scant recognition of his value. The world needs the physician more than it needs the professional preacher.—Rev. James B. Clayton, Baptist, Washington.

**Trusting in God's Will.**

"Blessed is the man whose delight is in the law of the Lord." Blessed is he who in every vicissitude and accident of life preserves in his heart an unalterable adhesion to God's will, through honor and dishonor, through evil report and good report, in sickness and in health, in riches and in poverty, in prosperity and adversity, in joy and sorrow, and who sees the loving hand of God and hears his paternal voice through the dense cloud of tribulation that envelops him. Happy, indeed, is he that has this short but comprehensive prayer often in his heart and on his lips: "Thy will, O Lord, be done!"—Cardinal James Gibbons, Roman Catholic, Baltimore.

**Inspiration a Great Need.**

Many a person dreams and works and is successful in life; others dream and do not work, and their life is a failure. It is, however, a person of the first type that claims the admiration of the world, the one who drinks in the undying inspiration and keeps life's purpose immortal. Let us rejoice when a great life wins and let us weep when a great life fails. Today if a paralyzing thought takes hold of you do not hang your head in defeat and say your work is done. Shame on such a conception! Away with such a vision! The great need of the world today is the undying source of inspiration. The bottom of the ladder is crowded with people waiting for some mysterious elevator, but the word is climb.—Rev. Allan A. Stockdale, Congregationalist, Boston.

**Reward of Service Here.**

The service of every man, however inconspicuous, is important. The plans of the so called geniuses of the world must be carried out by inconspicuous people. Another reward of the greatest value that comes invariably to true service, however inconspicuous, is new skill, deeper experience, larger knowledge and profounder wisdom. To any sincere man the greatest reward is not popularity. It is added power to do better service. Another larger reward of inconspicuous service is growth in character. True service increases manhood and womanhood. Since a man's real happiness depends more upon character than environment he can receive no finer reward, so far as his personal interest is concerned, than growth in character. The greatest reward of inconspicuous service is that it adapts us for the service of God in more influential positions.—Rev. Herbert S. Johnson, Baptist, Boston.

**It will pay you Large Returns on Your Investment.**

## Buy Mount Elliott Consolidated Mines Co. Stock

This Company owns in fee simple eleven patented mines (220 acres) in Big Big Mining District, Yavapai County, Arizona. These properties are equipped with three hoisting plants, a 10-stamp amalgamation and concentration mill; have been under continuous operation and development during the past two years.

The Mines and Mill will shortly be equipped with electric power and the capacity of present Mill doubled by the addition of 10 stamps, securing an increase of present earnings to approximately $150,000.00 per annum.

The affairs of the Company are in competent and conservative hands as represented by its Directors and officers—principally residents of Pittsburgh, Pa.

This stock we believe will advance to 50c or 60c within a very short time, and should sell at $1.00 or higher within next few months.

Buy it now "at the market." Write for further information.

### The Meat Boycott.

Probably not since the protest against the tax on tea in pre-Revolutionary times, has this country wit nessed the spectacle of thousands of people abstaining from a necessary food product as a protest against prices. In colonial times the British government imposed a tax on tea which the American people resented by declining to use the tea and destroying all the imports that were available. One hundred and thirty-seven years later the American people, because of the power permitted sundry combinations of capital to control the distribution of food products, are pursuing the same tactics as their forefathers in refusing to be a party to the rapacity of arbitrary power. They have now reached a condition where they are willing to forego personal comfort in support of a principle.

Just as the Boston Tea Party foretold the deluge, so is the present movement portentious in sociology. When the people rise en masse and are ready to undergo self-sacrifice and personal denial in support of a principle, something is going to happen. The people are now thinking along one line, and when they do that the causes for the complaint are pretty sure to become thoroughly discussed and recognized. Then action will follow. It is the indifference of the people that has permitted this condition to prevail, and now that they are reaping the whirlwind, they are aroused to the dangerous pitch of resistence. This is the most hopeful sign of the times in the interests of civic betterment that has yet appeared, and results sooner or later are bound to be achieved.

### Why It Failed.

Because of a news article that has been going the rounds concerning an alleged project of Allegheny county to try to acquire a strip of Westmoreland county along the Allegheny river, some of our contemporaries have become solicitous lest Charleroi make another try for a new county embracing the Monongahela valley. They devote considerable space to showing how such a project is impossible under the constitution, yet between the lines one can read that they are not quite sure of the truth of their assertions. The Connellsville Courier, in commenting on the improbability of the matter, says: "Charleroi people tried this game once and failed miserably. We do not believe they will attempt it again, but if they do, they will undoubtedly fail again."

As the Courier states, the attempt was made and failed, but not miserably, because it was all but accomplished. Every requirement and condition had been met—constitutional provisions and all—and the project fell through solely on account of a political exigency. Unfortunately the fight between the late Senator Quay and Governor Hastings for political supremacy in the State was precipitated, and but for this Monongahela county, with Charleroi as the county seat, would have been an established fact. In his extremity Senator Quay needed the three Fayette county delegates in his State chairmanship fight, which the late Frank Fuller of Uniontown had to deliver, and he got them only on condition that Fayette county would be eliminated from the new county division. That was why the project failed at the time.

### A Good Move.

The move on the part of the borough school board and superintendent of schools to add another year to the high school course is a good one. The three year course has been good so far as it goes, but experience has demonstrated that it does not go quite far enough to meet all requirements. It does not require any effort or logic to convince the public and school patrons that a four year high school course will give more training and mental discipline to students when they need it most, and better equip them for the duties of life than a three year course.

In addition to preparing students to enter college, which is an important feature, owing to our proximity to W. and J. College, the extra year in the practical course is most valuable. Many people cannot afford to send their children to college, but they can take advantage of high school courses. This of itself is ample reason for extending the course. An extra year's training at the high school at the time it is given saves the student a whole lot of hard and costly experience later on in life. The move is a wise one, and the school board and the superintendent are to be congratulated on their progressiveness.

## ELECTRIC SPARKS

If people quit eating meat they can hope for better health and their stomachs will not have to work overtime beating the tar out of a lot of gristle and tough, rare steak.

The help millionaires and millionaires daughters give to the working class is as a rule of the politic kind, to get a name for philanthropy.

After all has been said and done and Green elected more times than one can count, the official votes prove conclusively that Lewis is the president of the United Mine Workers.

Those who conduct the Spanish swindle game have nothing on some fellows that have infested Charleroi except in the daring audacity of demands.

First thing we know the government will take up a battle against the trusts and show them who's boss.

If some men were not so everlastingly generous they would not get in to three-fourths the trouble they do.

The popular nature of the debate of today should be, How can a working man live on small salary, and buy clothes for his wife, when he has to pay more than he earns for victuals?

### Will Sing at Monongahela.

Mrs. James Schnelbach, one of Chareroi's best vocalists and a pupil of Porf. Knotts of Pittsburg has been secured as contralto in the Monongahela Presbyterian church choir. Mrs. Schnelbach will take her new position on Sunday, January 30.

### Worshiping a Turtle.

At a place called Kotron, on the French Ivory Coast, the natives believe that to eat or destroy a turtle would mean death to the guilty one or sickness among the family. The fetich men, of which there are plenty, declare that years ago a man went to sea fishing. In the night his canoe was thrown upon the beach empty. Three days afterward a turtle came ashore at the same place with the man on its back alive and well. Since that time they have never eaten or destroyed one of that species, although they enjoy other species.

If one happens now to be washed ashore there is a great commotion in the town. First the women sit down and start singing and beating sticks, next a small piece of white cloth (color must be white) is placed on the turtle's back. Food is then prepared and placed on the cloth, generally plantains, rice and palm oil. Then, amid a lot more singing, dancing and antics of the fetich people, it is carried back into the sea and goes on its way rejoicing.

### What Thieves Won't Steal.

The last thing the woman did before leaving the flat was to put four rings in the clock on the mantel. "So thieves won't get them," she said.

"I should think that would be simply inviting thieves to run away with them," said her friend. "That is a handsome clock, and thieves like handsome clocks."

"They do," said the woman, "but they never will steal this clock. It ticks too loud. No wise thief will run away with a clock that goes like a thrashing machine. It isn't the alarm about his person that he is afraid of, for he can stop the clock, but the occupants of the flat are likely to return before he gets safely away, and if a loud ticking clock is gone they will miss it the minute they step inside the door and maybe give him a hot chase for his plunder."—New York Press.

## FALLING HAIR

### You Run No Risk When You Use This Remedy.

While many people in their prime doubt the assertion that "the hairs of our head are numbered," yet there is today many a man and woman fast reaching the point where this statement is literally brought home to them. If you suffer from irritation of the scalp, and from dandruff, or if your hair is falling out, do not wait until you reach the point where you can actually count how many hairs are left on your head.

Most cases of baldness are caused because the roots lack proper nutrition. In such cases there is a microbe which bores through the scalp along the line of the hair into the root and when it lodges there it begins to destroy the fatty matter around the hair root. When the scalp and hair roots are strong and healthy, it is impossbile for these microbes to get in their deadly work.

We can promise you that, if your hair is falling out, and you have not let it go too far, you can repair the damage already done by using "Rexall 93" Hair Tonic. It is scientific, cleansing, antiseptic, germicidal preparation, that destroys microbes, stimulates good circulation around the hair roots, promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water, and it is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall "93" Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices 50 cents and $1.00. Remember you can obtain it only at our store—The Rexall Store. John W. Carroll.

## DON'T BE OLD

### You will Not Be if You Follow this Simple Plan.

The woman of forty-five should be just in full bloom and her maturer beauty should resist the inroads of Time for many years thereafter. But this is possible only when the delicate skin of the face has been put in perfect condition. A sure healing and cleansing skin-food, of which Crown Cream is undoubtedly the best on the market will work wonders, even with a neglected complexion, when used in connection with correct massage. And that is not only possible, but very easy, for the woman who owns the remarkable massage appliance called the Harlan Beauty Cup. This is a most ingenious vacuum appliance made of pure Para rubber and gives much better results than are possible with manipulation of the delicate skin texture by the fingers.

While every user of Crown Cream knows that it alone will work wonders, driving away wrinkles, restoring complexions to their youthful beauty and improving the health of the skin in every way, yet by the use of the Beauty Cup these desirable results are hastened and made permanent. Not only is massage made easy, but there is no danger of injury to a delicate skin from unskillful fingers. The Harlan Beauty Cups are sold by all good dealers at the regular price of 50c each and this is also the price of Crown Cream. If your dealer is not now supplied, they will be sent, prepaid, upon order direct to the Harlan Mfg. Co., Toledo, O. Enclose the exact price and give your dealer's name also.

### Skin Diseases Readily Cured by a Simple Home Treatment.

Persons who are suffering from blackheads, pimples, dandruff, eczema, tetter, ring worm, or any form of skin disease, often ask the question, "is there a cure?"

We, Piper Bros. the druggist ssay, "yes, there is a cure." ZEMO, a scientific, clean, liquid preparation for external use, gives prompt relief and permanently cures every form of skin and scalp disease, whether on infants or grown persons. We will show you proof of many remarkable cures made by ZEMO and will gladly explain to you how you can be cured by this clean, simple home treatment. Piper Bros.

### Going to Tennessee.

Mr. and Mrs. Harvey F. Parsons leave Saturday morning for Lawrenceburg, Tenn., where they will make an extended visit with Mrs. Parsons' parents, Mr. and Mrs. Robert McNeal. They will for the present make their home in Tennessee. Mr. Parsons will still do bookkeeping and accountant work and take with him a month's work.

By a large rock on the northbound track near Bamord this morning the train due here at 8:18 o'clock was held back several minutes, arriving at about 9 o'clock.

# OWES HER LIFE TO

## Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was troubled with falling and inflammation, and the doctors said I could not get well unless I had an operation. I knew I could not stand the strain of one, so I wrote to you sometime ago about my health and you told me what to do. After taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier I am to-day a well woman."—Mrs. WILLIAM AHRENS, 988 W. 21st St., Chicago, Ill.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

**If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.**

# MORE BANK TALK

Did it ever occur to you why all good business men keep a checking account with a bank? We'll tell you. It enables them to keep their funds in a more secure place than the office safe. It gives them a better standing in the business world. It enables them to pay their bills by check, the returned check being an undisputable receipt.

Individuals find a checking account very convenient and a source of saving. Money in one's pocket is often spent on the spur of the moment, while one is disposed to think twice before drawing on his balance in the bank. Get the Savings Habit. Lay up for a rainy day. Start a bank account with the

## RELIGIOUS THOUGHT.

**Gems Gleaned From the Teachings of All Denominations.**

**Patience.**

Patience is as a case of armor around the heart, which deadens the blows inflicted on it.—Rev. J. B. Remensnyder, Lutheran, New York.

**Valuable Essential.**

Self control is an essential to manhood, and the only way to change your disposition is to bridle your conduct.—Rev. Robert Gordon, Baptist, Milwaukee.

**Facing the Future.**

We should fearlessly face the future, knowing that God can turn even the follies and the failures of the past into a certain sort of good to us. Rev. A. W. Snyder, Presbyterian, New York.

**Life's Foundation.**

Human life is itself the great tradition. It was handed down through parenthood, and when the parenthood is worthy the tradition is divine.—Rev. George A. Gordon, Congregationalist, Boston.

**Good Will.**

If you are sure of the good will in your own heart you will surely find it in God, in man, everywhere, and you will be able to see that the sun is shining, all nature is fair and friends are kind.—Rev. A. G. Singsen, Presbyterian, Providence, R. I.

**Unending Joy.**

This life is but a time of preparation for a life of unending joy and bliss. This is the lesson we are to learn today—that heaven is to be gained only through suffering; unending joy is to be purchased with the coin of sacrifice. First the cross, then the crown.—Rev. David J. Toomey, Roman Catholic, Boston.

**The Golden Age.**

Eternity we recognize as our inexhaustible treasure house, and through our hope, as through a window, we catch glimpses that inspire. Its thought is inspiration; its gleam is strength. The golden age is not back yonder, but ever before us. We keep our eyes on the sun, and the shadows of earth are kept behind us, and our eyes glow with the sunlight. When hope fails the man dies.—Rev. Dr. Wallace Radcliffe, Presbyterian, Washington.

**Getting Right With God.**

Get right with God, then, eternal source of all joy, for it is his joy that you must share to be joyous in very truth. The God centered man is always happy, for God's will becomes the orbit in which he moves. As God's revelation in the sun is the center of the solar system, so is God's revelation in Christ the center of the human system. Let Jesus prescribe thine orbit, then thou art ever in the light of God's face.—Rev. Dr. Robert MacDonald, Baptist, Brooklyn.

**Value of the Physician.**

Few appreciate the ministry and value of the physician. His task is Christlike in self sacrifice, opportunity and often in its thankless return. The first to be called in danger, he is the last to be paid among our creditors. He treads close to the Son of Man in life's highways, often doing heroic service in epidemics and benevolent service for the poor, and receives no man's "well done" and but scant recognition of his value. The world needs the physician more than it needs the professional preacher.—Rev. James B. Clayton, Baptist, Washington.

**Trusting In God's Will.**

"Blessed is the man whose delight is in the law of the Lord." Blessed is he who in every vicissitude and accident of life preserves in his heart an unalterable adhesion to God's will, through honor and dishonor, through evil report and good report, in sickness and in health, in riches and in poverty, in prosperity and adversity, in joy and sorrow, and who sees the loving hand of God and hears his paternal voice through the dense cloud of tribulation that envelops him. Happy, indeed, is he that has this short but comprehensive prayer often in his heart and on his lips: "Thy will, O Lord, be done!"—Cardinal James Gibbons, Roman Catholic, Baltimore.

**Inspiration a Great Need.**

Many a person dreams and works and is successful in life; others dream and do not work, and their life is a failure. It is, however, a person of the first type that claims the admiration of the world, the one who drinks in the undying inspiration and keeps life's purpose immortal. Let us rejoice when a great life wins and let us weep when a great life fails. Today if a paralyzing thought takes hold of you do not hang your head in defeat and say your work is done. Shame on such a conception! Away with such a vision! The great need of the world today is the undying source of inspiration. The bottom of the ladder is crowded with people waiting for some mysterious elevator, but the word is climb.—Rev. Allan A. Stockdale, Congregationalist, Boston.

**Reward of Service Here.**

The service of every man, however inconspicuous, is important. The plans of the so called geniuses of the world must be carried out by inconspicuous people. Another reward of the greatest value that comes invariably to true service, however inconspicuous, is new skill, deeper experience, larger knowledge and profounder wisdom. To any sincere man the greatest reward is not popularity. It is added power to do better service. Another larger reward of inconspicuous service is growth in character. True service increases manhood and womanhood. Since a man's real happiness depends more upon character than environment he can receive no finer reward, so far as his personal interest is concerned, than growth in character. The greatest reward of inconspicuous service is that it adapts us for the service of God in more influential positions.—Rev. Herbert S. Johnson, Baptist, Boston.

## A BEAR STORY.

**The Picture the Amateur Photographer Did Not Wait to Get.**

The best bear story I ever heard, states a writer in Recreation, was told me by an amateur prospector, who might have stepped out of a comic weekly. He had made a big trip in the Siskiyous with no weapon save a nickel plated miner's pick.

"Have you seen much game?" I asked.

"None at all," he replied in his dry falsetto.

"No bear!" I exclaimed, knowing he had come right through Bear Camp.

"Oh, yes," he returned, "quite so. Now that you mention it I dare say that is what it was. Didn't occur to me, you know. I was so very angry, don't you see, I took no pains to identify the brute."

"Why, what did he do to you?"

"What did he do? Why, nothing, of course. You see, the little beggar ran and climbed up a stump. And he wouldn't come down so I could obtain a decent photograph of him. Sat up there half a day, fifty feet from the ground. Then his legs got tired holding on, I imagine, for he started in to squeal. And, do you know, the brute must have given me away, for pretty soon his mother, I suppose it was, came hurrying up, and I had to clear out. Four times as big as he, she was, I assure you."

"Did you run?" I asked, laughing.

"Oh, not at all; not at all," said he. "But still I thought it best not to remain." He paused and stroked his stubbly chin reflectively.

"By Jove," said he finally, "how very interesting! I should have thought to photograph the old one. She looked quite savage, don't you know."

"Such a picture would have been unique, to say the least," I replied.

"Quite so," said he.

## LANGUAGE OF MUSIC.

**The Manner in Which It Appeals to the Human Heart.**

To those musical agnostics who deny to music any beauties save those of design and maintain that of itself it cannot express ideas and feelings Redfern Mason makes appropriate reply.

But there is another side to the picture. What was it that made George II. rise in his place when they sang the "Hallelujah" chorus, thereby setting an example which is followed to this day? What was it in the finale of the fifth symphony that drew the Napoleonic veteran to his feet with the exclamation, "The emperor?" What sanctity in the Ambrosian hymns moved St. Augustine to tears?

During the wars of the French revolution it was forbidden, on pain of death, to play the "Ranz des Vaches" in the hearing of the Swiss soldiers, for so acute a longing for home did it bring upon them that they deserted in hundreds. Are we to think that there was no virtue in the music itself and that the effect produced was the outcome of purely accidental circumstances?

The Austrian government forbade Berlioz to play the "Rackoczy" march at Budapest, fearful of its effect on the inflammable Hungarians. Was the fire of patriotism kindled by the mere knowledge that the melody symbolized Hungary, or did the notes speak with tongues of flame?—Atlantic Monthly.

**Apfelsine.**

Messina furnished early in the nineteenth century a new word for the German language. It was from there that oranges were first shipped to Germany, and the fruit was known for a long time after its advent as "apfel aus Messina"—apple from Messina. After many years "apfel aus Messina" degenerated into "apfel Messina," and finally it became "apfelsine," the name by which oranges are still known among German speaking people.

**Santa Claus Hospital.**

Santa Claus hospital is the name to be given to the hospital for children which the women of Denver are raising money to erect. A good part of the money has been gathered by the children of the city under the leadership of Mrs. T. S. Hayden, president of the association, and Miss Adelaide Raynolds Haldeman, vice president. This children's branch of the Hospital association was named the Legion of Honor, and even babies of two and three years wore its white cross badge and took part in the entertainments employed to get the necessary funds

## AMONG THE THEATERS

### The Coyle—Charleroi.

The Monte Carlo Girls Burlesque company, one of the best burlesque organizations traveling today, comprising some 20 comely maidens and a quartet of original comedians, are to play at the Coyle Theatre Monday evening, January 24. The entertainment this season will consist of two new burlettas entitled "The Merry Madcaps" and "Too Many Husbands," in each of which the entire company take part. The Monte Carlo Girls have earned an excellent reputation from one end of the country to the other for their original novelties, as well as for their pretty girls. The company numbers 25 people, among whom are that dancing wonder, Le Belle Myrtle, also Lew Golden, whose very appearance brings a smile to one's face; but he is so well known that just to mention his name is a guarantee of plenty of fun. Indications point to a large house.

### The Palace—Charleroi.

"The Female Reporter," was the title of a pleasing life motion picture at the Palace Theatre this week. The first scene pictured the news room of a busy daily newspaper where a "day's work is done in a minute." The Sunday editor orders the managing eidtor to have one of his best repoters detailed to burglarize a house, and to write up "how it feels." The manager picks his young lady reporter, and she is immediately onto the job. During the process she is interrupted in gathering up the "swag," after entering a residence, by a young man, an inmate, who telepones the police and orders the burglar—then invisible—to remain quiet at the point of a revolver. He finally discovers the burglar to be a girl, and becomes friendly. He lays down his revolver which the reporter picks up and when the "cops" arrive she covers the young fellow. Naturally the "cops" think he's the thief, and rush him to the station. There were many other interesting features, which, with illustrated songs and fine orchestral music, make most attractive exhibitions.

### The Nixon—Pittsburg.

At the Nixon Theatre on Monday evening the celebrated musical comedy "Three Twins" will be given its first presentation in Pittsburg and local theatre goers are fortunate in the fact that the original company of 70 people, headed by Clifton Crawford comes to the city. "Three Twins' in the past two seasons has been phenomenally successful in all sections of the country, three companies being engaged in the presentation of the piece. The organization which visits Pittsburg played for an entire season on Broadway, and has just completed a three months' run in Boston.

"Three Twins" is an adaptation of the farce "Incog," made by Charles Dickson, with a very tuneful score supplied by Karl Hoschna. The book tells a story of confused identities, three young men of closer ensemblance and rivals in matters amatory, become involved in the most ludicrous situations and thereby cause a whirl of fun-making that causes uproarous laughter. Mr. Crawford is one of the best light comedians in America and in the Gaietes offering has every opportunity to display his cleverness. The supporting company includes Jos. Allen, George Wilson, W. H. Vedder, George Stuart Christie, Ralph J. Locke, Mayme Gehrue, Daisy Leon, Ada Gordon and Della Niven. A chorus of fifty bewitchingly pretty girls is a feature of the production. Some of the music of "Three Twins" has secured a national vogue, notably the "Yama Yama" song. Other popular numbers are "The Fifth Avenue Brigade," "Ou-La-La" "The Girl Up There," "Little Miss Up-to-Date," "Cuddle Closer" and "The Goodnight Serenade." Matinees will be given on Wednesday and Saturday.

### The Duquesne—Pittsburg.

As a satire on society fads there is nothing more laughable than. "My Friend From India," a delightful comedy in which the Harry Davis Stock company will be seen in the New Duquesne theatre next week.

The efforts of a wealthy pork packer's family to reak into the ranks of New Yorks "400" is the particular weakness of human nature at which H. A. DuSouchet, the author of the comedy, directed his satirical shafts. Strange fads have often been the means of creating social prominence and the unconventional head of the Kansas family, who has spent a fortune in trying to win a place for his daughter in the exclusive sets, finally hits upon a freak idea which nearly brings him the coveted prizes. The idea is furnished him by his son, a convivial chap, who, while on a spree one night, takes home with him a stranger. The son, in order to properly explain the stranger's presence, introduces him as his friend from India, a theosphist and a student of the occult.

It develops that the stranger is none other than a New York barber, but in order to help out his friend he continues to pose as the man from India.

Thoe who have seen the stock company in comedy need not be told that "My Friend From India" will be in good hands and that the New Duquesne theatre will resound with merry laughter at every performance next week. There will be a matinee every day. Seats are now on sale.

## LOCAL NOTES

**Brief Mention of People and Events in this Community.**

Misses Catherine Gray and Ada Arnold and Messrs. Leon Adams and Alexander Gray were the guests last evening of Manager M. L. Froman at the Grand Theatre, Donora.

The funeral of Jacob T. Roley, who died at his home in Belle Vernon Wednesday evening, will be held from the late home Saturday afternoon at 3 o'clock. Interment will be in the Belle Vernon cemetery.

Roland E. Hoops of Donora was calling on friends in this place last evening.

The Bargain gates are open wide and royal welcome awaits a host of Shoe Buyers for Saturday. Adolph. 131t1

Josiah Bowman of Morgantown, W. Va., a former resident of Charleroi was here yesterday visiting friends.

H. A. Chalfant who is connected with the C. D. and P. Telephone company at Connellsville, was in Charleroi last night and this morning transacting business and visiting friends.

No dull days at this store—We haven't allowed for them in our business calculations. Adolph. 131t1

Theodore J. Allen and daughters have moved from Fredericktown to Charleroi into Mr. Allen's property on Washington avenue, near Sixth street.

Mrs. Clyde Sheep of Coraopolis is visiting Mrs. U. S. Orange of Third street.

Mrs. J. W. Hunter went to Pittsburg today to visit friends there and in Sewickley valley.

Mrs. D. R. Hormell is visiting relatives in Carrick.

Think before you buy and then you'll buy and you'll buy right here. Adolph. 131t1

The choir of the Wasnington Avenue Presbyterian church went to Belle Vernon last night to aid in revival services being conducted at the Methodist Episcopal church.

Miss Florence Frew of Fallowfield avenue is seriously ill.

Alfred Wildman, a motorman for the Westside Street railway company, has moved his family into the house of F. P. Hasson of 7709 Oakland avenue.

Mrs. M. R. Stewart is spending the day in Pittsburg.

Rev. G. G. Kerr and son, Gibson went to California this morning to attend the revival services being held by Rev. E. E. Hendrick and Mr. A. L. Carter at the Presbyterian church.

# Jos. G. Godissart

Desires to direct your attention to an extraordinary clearance sale to commence

## Saturday, Januarv 22nd, 1910

and lasts until January 31, 1910

The most important sale of the season, every pair of shoes is guaranteed to be from our regular stock, and not bought with the idea of organizing a fake sale.

To tell the truth, I don't like a shoe sale—my last sale was in August, 1908—it disturbs the even trend of business conditions. But sometimes nature takes a hand in business affairs and alters these conditions. Since our last sale we have accumulated a lot of different sizes of different lines. The fall and winter season has left us with a stock too large to carry until next season. For the dealer, the winter is nearly over—for you it is only just beginning. Winter shoes will be worn from now until April.

The prices quoted here make a simple business proposition fully backed by our guarantee of fairness. Our sales of the past have demonstrated to the public of Charleroi and vicinity that every claim made is fully carried out.

### Ralston Health Shoes

"Union Made"

Our entire line of Ralston Health Shoes, kangaroo, velour, waxed calf, gun metel and patent colt in button or blucher in black or tan; known the country over to retail at $4.00.....now **$3.25**

# THE CHARLEROI MAIL

Entered second class mail at Charleroi, June 15, 1909, according to Act of Congress of March 3, 1879

VOL. X. NO. 131. CHARLEROI, WASHINGTON CO., PA., FRIDAY, JANUARY 21, 1910. One Cent

## CHARLEROI LUMBER CO. GETS IMPORTANT CONTRACT

### Will Build Fifty-Nine Houses at Fredericktown and Ten Near Coal Center for Vesta Coal Company.

### BUILDINGS UP-TO-DATE IN EVERY WAY

The Charleroi Lumber company has been awarded a contract for the erection of 69 houses by the Vesta Coal company, and work will be begun on the excavations the first of next week. The buildings will be erected at Fredericktown and Hood's Run, near Coal Centre and the entire contract price is approximately $150,000.

There will be 59 houses erected at Fredericktown, where the Vesta Coal company has opened the Vesta No. 5 mine. These will consist of three superintendent's houses, eight rooms and bath with electric lights, each to cost about $3,500; 10 12-room double blocks, with bath and electric lights; 20 eight room blocks, bath and electric lights; 10 four-room blocks, baths and electric lights; and 16 one story miners houses without the baths. At Hood's Run there will be 10 miner's houses erected.

The structures at Fredericktown will be located on what is known as the Litzenburg farm, between Fredericktown and Centerville. As will be noticed they are to be up-to-date in every respect and in reality an innovation for miner's houses. The plumbing contract has been awarded to Regan and Hormell of Charleroi, and the wiring contract to A. D. Spencer of Charleroi.

## SAYS PAPERS KNOCK INSTEAD OF BOOST BRIDGE PROJECT

Regarding the proposed free bridge between Belle Vernon and Speers, the Belle Vernon Enterprise in its issue today says editorially:

"The press of Washington county seems very anxious to give the Belle Vernon bridge a black eye, and parteularly is this true of the papers at the county seat. The Observer seems to take great delight in proposing reforms, but we believe some of these things should have taken place when certain men were in power, and not waited until after the tidal wave in political life had laid them on the beach. Hon. E. F. Acheson, in an address at the dedication of the free bridge at Monongahela, said "the next bridge to be made free should be the one at Belle Vernon." There were no strings to his statement. There were no ifs and ands about it. And his statement was received with applause because those present felt the justness of his remarks.

"We do not consider it just for the pres, to try to poison the minds of the viewers. These men ought to be free and unbiased. It is their duty to come here with no scales on their eyes or minds made up in advance. The borough of Speers deserves considerate treatment. Their money has gone into the coffers of the county and they have helped pay for many of the bridges over the county streams. Some of her residents have never crossed even one of the bridges over such streams and possibly never will. But you never heard them kick. The same can be said for Belle Vernon.

"Brother, of the press, don't be knockers—be boosters for the progressive cause. Let the viewers, who are, we believe, men of brains, decide the issue. We will have to abide by their decision, but we want them to decide after viewing the structure and not before. Our people are almost a unit for a free bridge. It is our just due."

### Social.

The Golden Rule Class of the First Christian Church will hold a social in the basement of the church on Friday evening at 7 o'clock. Admission 10 cens. Coffee, cake and ice cream will be served. 128t4

## PITTSBURG TRADES COUNCIL PLACES BOYCOTT ON MEAT

Iron City Trades Council at Pittsburg last night adopted a resolution which calls for a boycott of the meat trust and declaring that if conditions are not bettered at once all members of local trade unions shall pledge themselves to abstain from the use of meat for 30 days. A part of the resolution follows:

Resolved, That all members of local trade unions and organizations affiliated with this be called upon to declare a boycott against the meat trust by refusing to eat meat for a period of 30 days, unless there is a decided amelioration of the deplorable conditions regarding the price of this commodity, and that all members use their endeavors to secure others not affiliated with local organizations to do likewise.

The Washington Trades Council has already declared a boycott on meat and it is expected that every other trades council in this district will take the same action.

## ALLEGHENY COUNTY CONTROLLER THINKS POSSIBLE INCREASE

In the opinion of county controller Robert J. Cunningham of Allegheny, it will be necessary this year to increase the millage a quarter and possibly a half mill. The total millage last year was 2 3-4 mills, divided as follows: Current expenses, 1 3-4 mills; road, 1-2 and 1-2 for the poor, which gives the above total of 2 3-4 mills.

The increase in valuation over last year amounts to but $24,000,000. The total county valuation last year was $1,066,000,000. This year it is $1,090,000,000.

### Snared Rabbit, Paid $50.

It cost Anglo Thormassi of Washington $50 and costs at a justices hearing for snaring one rabbit. Traps had been discovered south of the county seat by Game Warden Eugene Teinbold, who kept a watch, and it was alleged, saw Thomassi take a rabbit from one of them

Frank Arrison was a visitor with friends in Monongahela last evening.

## OFFICIALS OF HOSPITAL MAKE THEIR REPORT

### Institution Proving Its Worth for People of Upper Monongahela.

### CHARITY WORK BEING DONE

Many persons have said that they would like to know what the Monessen-Charleroi hospital is doing. Some are interested only from curiosity, while others are acting in good faith. The board of directors are acting in good faith and feel that, in a measure, their labors in the cause of humanity are appreciated. There is nothing in the management anywhere to cover up, as at a recent meeting of an auditing committee every dollar—yes, every cent—was accounted for. This committee reported that under the management of Miss Rebecca Miller of Scottdale the hospital was doing good work, and with the people of Charleroi, Monessen and Belle Vernon working for it, the success of the institution is assured. The hospital opened in April, 1909, and up to January 1, 1910, the receipts from patients amounted to almost $8,000 or to be exact, $2,974.20. During the spare time Miss Miller kept her books in proper shape and paid out for salaries and wages $1,238.65, house expenses $1,300.91, other expenses, which were itemized, $434.64.

May 1 there were seven patients in the hospital. During May there were 20 admitted; 14 were dicharged and 8 died. Taking the totals for the nine months there have been over 200 patients admitted for treatment, 150 discharged and 27 died. Of the latter there were a number of accidents which proved fatal within 24 hours.

The contributions, in money, have not come up to the expectations of the promoters. The treasurer's report shows that they only received from all sources $1,503.73. He paid out $1,460.93, leaving in his hands as cash $42.80.

The books show that the bills outstanding amount to only $1,335.05, while the accounts receivable amount to close to $500. With the amount done for charity charged there would be practically no deficiency. This we consider a good showing, and invite all to resolve in the new year to lend a willing hand.

H. R. Pore, Pres.
E. C. Niver, Sec.

## UNION NEWS CO. MAY PLACE BRICK STRUCTURE HERE

William H. Keller, superintendent of the Union News company, which had contemplated locating a stand on the corner of McKean avenue and Fifth street, was in Charleroi yesterday to look after the matter and ascertain the advisability of constructing a brick structure. Council at a meeting the fore part of this week took action to the effect that the wooden structure which the News company had shipped here be not allowed.

Mr. Keller was of the opinion that the News company would construct a brick veneer structure, to face on Fifth street. He considered the town a good place for such a stand.

## COMING PRIMARY DOES NOT RAISE PROPER INTEREST

Very little interest is manifested in the primary election to be held tomorrow, in spite of the fact that important offices are to be filled in the borough, for which the primary will have largely to do. Justice of the peace seems to be the only place which will be contested there being a number out. While there seems to be as far as can be learned no real favorite, each one of the candidates has a following of friends. The officers of council and school directors will claim some attention.

FOR SALE—Five head of work horses and one driver. Floyd Bonnell. Call Charleroi 'phone. 129t8p

## ACTIONS OF OTHER TOWNS APPROVED BY LOCAL PEOPLE

### Some Charleroi Citizens Would Also Place Boycott on Meat.

### OTHER STAPLES COME HIGH

There is an undercurrent of feeling against the present high prices of meat in Charleroi, and aroused by the action people of other towns and cities are taking, may develop into some action here if nothing more than a tacit agreement to abstain from eating the product. Since certain cities over the country have taken action to boycott meat, on account of the prevailing high prices prominent citizens of this place have begun to consider the feasibility of such a plan, and some have already formed a pact among themselves to stop eating meat. The latest place where action was taken to boycott meat was in Pittsburg last night. This week the Washington trades council took up the matter and action is likely to follow.

The meat men declare that if people should abstain from eating meat for a year, it would not affect them at all. However a feeling of nervousness is noticeable. It is not alone the meat on which prices have been areoplaned but on other staples as well.

## CONNELLSVILLE WANTS APPROPRIATION FOR CRAWFORD MONUMENT

A $50,000 Federal appropriation for Connellsville is proposed by Congressman Cooper in a bill introduced in the House yesterday at the National capital. The money is desired for the erection of a monument to the memory of Colonel William Crawford of the Braddock Expedition, who is described as "a Revolutionary patriot, the trusted friend of George Washington and commander of the expedition against the Wyandotte Indians living upon the Sanduksy River, in the northwestern part of what is now the State of Ohio."

The House is further informed that Colonel Crawford "was captured by the Indians and burned at the stake on July 11, 1782." The monument is to bear suitable inscriptions, emblems and devices "to perpetuate the memory and to commemorate the services and patriotic sarifices made by Colonel Crawford."

The Secretary of War is named to supervise the work and make the necessary allotment of money from time to time.

## COUNTY HOME OFFICIALS INFORMED THEY MUST FIX SANITARY ARRANGEMENTS

John J. Oates of Charleroi, a representative of the State Health Department, notified the county poor board and Superintendent John W. Quivey of the county home that some immediate action must be taken in regard to the disposal of waste for that institution or the State Department would do the work at the expense of the county.

The notice, which comes from Samuel G. Dixon, State Health Commissioner, states that the proper authorities of the county must abate within ten days the direct orindirect pollution of natural water courses by drainage from the county home.

### Notice to the Public.

We have been informed that certain persons are going around soliciting an exchange of our premium tickets for the S. and H. green trading stamps, stating that we have discontinued giving our premium tickets. No such action has been authorized by us as we still continue giving our premium tickets. Our tickets are worth 5 cents on the dollar for any one of our premium articles and will be redeemed by us at their value.

129t2 J. W. Berryman and Son.

WANTED—Girl for general housework. Apply 419 McKean avenue. 130t2

## THOMAS L. LEWIS WINS WITH A LARGE MAJORITY

### For Third Time is Elected National President of the United Mine Workers---Tellers Finish Work.

### PENNSYLVANIANS NAMED ON COMMITTEES

As forecasted in the Mail of Wednesday Thomas L. Lewis has for the third time been elected National President of the United Mine Workers. Yesterday the tellers at Indianapolis, where the National scale convention is in session, completed the count, and they announced today that Mr. Lewis is elected president by a majority of 23,597 over his opponent, William Green of Ohio. Two years ago, when John Mitchell stepped down and out, it had been previously arranged to hand the office to Congressman W. B. Wilson of Pennsylvania, who was the secretary-treasurer. The entire administration batteries were turned on Lewis, but he pulled through by a margin of about 2,500, the official count not being made known until the last day of the convention. Last year John Walker, the Illinois leader, was pitted against Lewis, but the latter went under the pole with about 17,000 to the good.

From this time on it is expected the convention will get down to real business. The miners' work must be finished by February 1, so they can present their demands to the operators on that date.

The Pennsylvanians on the standing committees of this convention are: Officers' reports, John Sullivan and W. E. Patterson; constitution, Fred Ledvinka and Thomas M. McClement; resolutions, S. A. Whetzel; scale, Patrick Gilday and Francis Feehan.

## BIG COAL COMBINE MAY DISCONTINUE RIVER SHIPPING

At the annual meeting of stockholders the Monongahela River Consolidated Coal and Coke company at Pittsburg this week J. B. Finley, A. W. Mellon, Alexander Dempster, John A. Bell, David B. Oliver, Harry R. Rea, George W. Theiss and J. Denniston Lyon were elected directors.

The annual report of the company showed a net loss of $376,155.73, due to the New Orleans cyclone. President Theiss said that had it not been for this loss which was a little in excess of $700,000, between $850,000 and $400,000 would have been passed to the surplus fund for distribution in dividends. The salvage from the sunken coal is expected to reach at least $200,000 so that the loss will not be as great as it was at first supposed.

The report also shows that it had a net surplus of $1,600,552.33 October 31 last, after deducting a dividend of $125,000 paid last January and its net loss for the year.

The question of the company giving up the New Orleans trade was discussed informally. The reason for this was because of the heavy loss sustained by the company early last fall, when a hurricane prevailed in the coast country and which sank several hundred coal boats loaded with fuel, and competition from the Alabama coal fields. Because of this the shipments from this section have declined greatly in recent years.

George W. Theiss, president of the company said the trade could be dropped were it not for the fact that the company had $4,000,000, invested in floating property and coal elevators depots. The local coal consumption, Mr. Theiss said, had increased, and especially the rail business, the company shipping much coal to the lakes and Canadian points. It was stated that a contract made with the Carnegie Steel company has 21 years yet to run and this concern takes about one-third of the total output of the company's mines.

The question of finding a market for coal to be used in products also was discussed. Much coal is used in coal tar, vaseline made from coal tar, gas, etc.

## CHARLEROI PEOPLE ATTEND RALLY OF LUTHER LEAGUE

Twelve members of the Charleroi Lutheran League of Christ Lutheran church went to Monongahela last evening to attend a league rally, held by the Pittsburg Extension Committee of the Central Luther League and the Tri-Luther League of the valley. The rally which was held at the Grace Lutheran church was well attended, and four societies were represented, Charleroi, Monessen, Monongahela and Scenery Hill, besides visitors from Pittsburg and other places. Rev. W. E. Bauer of Pittsburg made the principal address. J. McFranks of the Pttsburg Extension made a report of the preparations being made for the National Lutheran League in Pittsburg next fall. At this convention music will be a feature. A social hour followed the rendition of the program.

### Not a Candidate.

Although my name will appear on the Republican ticket as a Republican candidate for the nomination of justice of the peace at the primary election Saturday, I desire to inform my friends and the public generally that I am not a candidate for the nomination. My name was suggested but I neglected to have it withdrawn until too late.

130t2 F. P. McCloskey.

### Surprise Party.

A number of the friends of Edward and Herbert Steinman tendered them a surprise at their home on Fallowfield avenue last night. The party was quietly arranged so that the two young fellows had no intimation of it until the crowd "just dropped in." The evening was enjoyably spent with various social diversions and light refreshments were served. There were about thirty present.

### Notice.

The American Cleaning and Dyeing works of Thompson avenue, Donora, will be continued under the management of C. J. Kinney, of Steubenville, Ohio. All persons having accounts against the firm will present them for payment, at 626 Thompson avenue, Donora. 130t3

## The Meat Boycott.

Probably not since the protest against the tax on tea in pre-Revolutionary times, has this country witnessed the spectacle of thousands of people abstaining from a necessary food product as a protest against prices. In colonial times the British government imposed a tax on tea which the American people resented by declining to use the tea and destroying all the imports that were available. One hundred and thirty-seven years later the American people, because of the power permitted sundry combinations of capital to control the distribution of food products, are pursuing the same tactics as their forefathers in refusing to be a party to the rapacity of arbitrary power. They have now reached a condition where they are willing to forego personal comfort in support of a principle.

Just as the Boston Tea Party foretold the deluge, so is the present movement portentious in sociology. When the people rise en masse and are ready to undergo self-sacrifice and personal denial in support of a principle, something is going to happen. The people are now thinking along one line, and when they do that the causes for the complaint are pretty sure to become thoroughly discussed and recognized. Then action will follow. It is the indifference of the people that has permitted this condition to prevail, and now that they are reaping the whirlwind, they are aroused to the dangerous pitch of resistence. This is the most hopeful sign of the times in the interests of civic betterment that has yet appeared, and results sooner or later are bound to be achieved.

## Why It Failed.

Because of a news article that has been going the rounds concerning an alleged project of Allegheny county to try to acquire a strip of Westmoreland county along the Allegheny river, some of our contemporaries have become solicitous lest Charleroi make another try for a new county embracing the Monongahela valley. They devote considerable space to showing how such a project is impossible under the constitution, yet between the lines one can read that they are not quite sure of the truth of their assertions. The Connellsville Courier, in commenting on the improbability of the matter, says: "Charleroi people tried this game once and failed miserably. We do not believe they will attempt it again, but if they do, they will undoubtedly fail again."

As the Courier states, the attempt was made and failed, but not miserably, because it was all but accomplished. Every requirement and condition had been met—constitutional provisions and all—and the project fell through solely on account of a political exigency. Unfortunately the fight between the late Senator Quay and Governor Hastings for political supremacy in the State was precipitated, and but for this Monongahela county, with Charleroi as the county seat, would have been an established fact. In his extremity Senator Quay needed the three Fayette county delegates in his State chairmanship fight, which the late Frank Fuller of Uniontown had to deliver, and he got them only on condition that Fayette county would be eliminated from the new county division. That was why the project failed at the time.

## A Good Move.

The move on the part of the borough school board and superintendent of schools to add another year to the high school course is a good one. The three year course has been good so far as it goes, but experience has demonstrated that it does not go quite far enough to meet all requirements. It does not require any effort or logic to convince the public and school patrons that a four year high school course will give more training and mental discipline to students when they need it most, and better equip them for the duties of life than a three year course.

In addition to preparing students to enter college, which is an important feature, owing to our proximity to W. and J. College, the extra year in the practical course is most valuable. Many people cannot afford to send their children to college, but they can take advantage of high school courses. This of itself is ample reason for extending the course. An extra year's training at the high school at the time it is given saves the student a whole lot of hard and costly experience later on in life. The move is a wise one, and the school board and the superintendent are to be congratulated on their progressiveness.

## ELECTRIC SPARKS

If people quit eating meat they can hope for better health and their stomachs will not have to work overtime beating the tar out of a lot of gristle and tough, rare steak.

The help millionaires and millionaires daughters give to the working class is as a rule of the politic kind, to get a name for philanthropy.

After all has been said and done and Green elected more times than one can count, the official votes prove conclusively that Lewis is the president of the United Mine Workers.

Those who conduct the Spanish swindle game have nothing on some fellows that have infested Charleroi except in the daring audacity of demands.

First thing we know the government will take up a battle against the trusts and show them who's boss.

If some men were not so everlastingly generous they would not get in to three-fourths the trouble they do.

The popular nature of the debate of today should be, How can a working man live on small salary, and buy clothes for his wife, when he has to pay more than he earns for victuals?

## Will Sing at Monongahela.

Mrs. James Schnelbach, one of Chareroi's best vocalists and a pupil of Porf. Knotts of Pittsburg has been secured as contralto in the Monongahela Presbyterian church choir. Mrs. Schnelbach will take her new position on Sunday, January 30.

### Worshiping a Turtle.

At a place called Koiroo, on the French Ivory Coast, the natives believe that to eat or destroy a turtle would mean death to the guilty one or sickness among the family. The fetich men, of which there are plenty, declare that years ago a man went to sea fishing. In the night his canoe was thrown upon the beach empty. Three days afterward a turtle came ashore at the same place with the man on its back alive and well. Since that time they have never eaten or destroyed one of that species, although they enjoy other species.

If one happens now to be washed ashore there is a great commotion in the town. First the women sit down and start singing and beating sticks; next a small piece of white cloth (color must be white) is placed on the turtle's back. Food is then prepared and placed on the cloth, generally plantains, rice and palm oil. Then, amid a lot more singing, dancing and antics of the fetich people, it is carried back into the sea and goes on its way rejoicing.

### What Thieves Won't Steal.

The last thing the woman did before leaving the flat was to put four rings in the clock on the mantel. "So thieves won't get them," she said.

"I should think that would be simply inviting thieves to run away with them," said her friend. "That is a handsome clock, and thieves like handsome clocks."

"They do," said the woman, "but they never will steal this clock. It ticks too loud. No wise thief will run away with a clock that goes like a thrashing machine. It isn't the alarm about his person that he is afraid of, for he can stop the clock, but the occupants of the flat are likely to return before he gets safely away, and if a loud ticking clock is gone they will miss it the minute they step inside the door and maybe give him a hot chase for his plunder."—New York Press.

## FALLING HAIR

### You Run No Risk When You Use This Remedy.

While many people in their prime doubt the assertion that "the hairs of our head are numbered," yet there is today many a man and woman fast reaching the point where this statement is literally brought home to them. If you suffer from irritation of the scalp, and from dandruff, or if your hair is falling out, do not wait until you reach the point where you can actually count how many hairs are left on your head.

Most cases of baldness are caused because the roots lack proper nutrition. In such cases there is a microbe which bores through the scalp along the line of the hair into the root and when it lodges there it begins to destroy the fatty matter around the hair root. When the scalp and hair roots are strong and healthy, it is impossbile for these microbes to get in their deadly work.

We can promise you that, if your hair is falling out, and you have not let it go too far, you can repair the damage already done by using "Rexall 93" Hair Tonic. It is scientific, cleansing, antiseptic, germicidal preparation, that destroys microbes, stimulates good circulation around the hair roots, promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water, and it is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall "93" Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices 50 cents and $1.00. Remember you can obtain it only at our store—The Rexall Store. John W. Carroll.

## DON'T BE OLD

### You will Not Be if You Follow this Simple Plan.

The woman of forty-five should be just in full bloom and her maturer beauty should resist the inroads of Time for many years thereafter. But this is possible only when the delicate skin of the face has been put in perfect condition. A sure healing and cleansing skin food, of which Crown Cream is undoubtedly the best on the market will work wonders, even with a neglected complexion, when used in connection with correct massage. And that is not only possible, but very easy, for the woman who owns the remarkable massage appliance called the Harlan Beauty Cup. This is a most ingenious vacuum appliance made of pure Para rubber and gives much better results than are possible with manipulation of the delicate skin texture by the fingers.

While every user of Crown Cream knows that it alone will work wonders, driving away wrinkles, restoring complexions to their youthful beauty and improving the health of the skin in every way, yet by the use of the Beauty Cup these desirable results are hastened and made permanent. Not only is massage made easy, but there is no danger of injury to a delicate skin from unskillful fingers. The Harlan Beauty Cups are sold by all good dealers at the regular price of 50c each and this is also the price of Crown Cream. If your dealer is not now supplied, they will be sent, prepaid, upon order direct to the Harlan Mfg. Co., Toledo, O. Enclose the exact price and give your dealer's name also.

## Skin Diseases Readily Cured by a Simple Home Treatment.

Persons who are suffering from blackheads, pimples, dandruff, eczema, tetter, ring worm, or any form of skin disease, often ask the question, "is there a cure?"

We, Piper Bros. the druggist ssay, "yes, there is a cure." ZEMO, a scientific, clean, liquid preparation for external use, gives prompt relief and permanently cures every form of skin and scalp disease, whether on infants or grown persons. We will show you proof of many remarkable cures made by ZEMO and will gladly explain to you how you can be cured by this clean, simple home treatment. Piper Bros.

## Going to Tennessee.

Mr. and Mrs. Harvey F. Parsons leave Saturday morning for Lawrenceburg, Tenn., where they will make an extended visit with Mrs. Parsons' parents, Mr. and Mrs. Robert McNeal. They will for the present make their home in Tennessee. Mr. Parsons will still do bookkeeping and accountant work and take with him a month's work.

By a large rock on the northbound track near Bamord this morning the train due here at 8:18 o'clock was held back several minutes, arriving at about 9 o'clock.

# OWES HER LIFE TO

## Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was troubled with falling and inflammation, and the doctors said I could not get well unless I had an operation. I knew I could not stand the strain of one, so I wrote to you sometime ago about my health and you told me what to do. After taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier I am to-day a well woman."—Mrs. WILLIAM AHRENS, 988 W. 21st St., Chicago, Ill.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

**If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.**

# MORE BANK TALK

Did it ever occur to you why all good business men keep a checking account with a bank? We'll tell you. It enables them to keep their funds in a more secure place than the office safe. It gives them a better standing in the business world. It enables them to pay their bills by check, the returned check being an undisputable receipt.

Individuals find a checking account very convenient and a source of saving. Money in one's pocket is often spent on the spur of the moment, while one is disposed to think twice before drawing on his balance in the bank. Get the Savings Habit. Lay up for a rainy day. Start a bank account with the

## RELIGIOUS THOUGHT.

**Gems Gleaned From the Teachings of All Denominations.**

**Patience is as a case of armor around the heart, which deadens the blows inflicted on it.**—Rev. J. B. Remensnyder, Lutheran, New York.

**Valuable Essential.**

Self control is an essential to manhood, and the only way to change your disposition is to bridle your conduct.—Rev. Robert Gordon, Baptist, Milwaukee.

**Facing the Future.**

We should fearlessly face the future, knowing that God can turn even the follies and the failures of the past into a certain sort of good to us.—Rev. A. W. Snyder, Presbyterian, New York.

**Life's Foundation.**

Human life is itself the great tradition. It was handed down through parenthood, and when the parenthood is worthy the tradition is divine.—Rev. George A. Gordon, Congregationalist, Boston.

**Good Will.**

If you are sure of the good will in your own heart you will surely find it in God, in man, everywhere, and you will be able to see that the sun is shining, all nature is fair and friends are kind.—Rev. A. G. Slagsen, Presbyterian, Providence, R. I.

**Unending Joy.**

This life is but a time of preparation for a life of unending joy and bliss. This is the lesson we are to learn today—that heaven is to be gained only through suffering; unending joy is to be purchased with the coin of sacrifice. First the cross, then the crown.—Rev. David J. Toomey, Roman Catholic, Boston.

**The Golden Age.**

Eternity we recognize as our inexhaustible treasure house, and through our hope, as through a window, we catch glimpses that inspire. Its thought is inspiration; its gleam is strength. The golden age is not back yonder, but ever before us. We keep our eyes on the sun, and the shadows of earth are kept behind us, and our eyes glow with the sunlight. When hope fails the man dies.—Rev. Dr. Wallace Radcliffe, Presbyterian, Washington.

**Getting Right With God.**

Get right with God, then, eternal source of all joy, for it is his joy that you must share to be joyous in very truth. The God centered man is always happy, for God's will becomes the orbit in which he moves. As God's revelation in the sun is the center of the solar system, so is God's revelation in Christ the center of the human system. Let Jesus prescribe thine orbit, then thou art ever in the light of God's face.—Rev. Dr. Robert MacDonald, Baptist, Brooklyn.

**Value of the Physician.**

Few appreciate the ministry and value of the physician. His task is Christlike in self sacrifice, opportunity and often in its thankless return. The first to be called in danger, he is the last to be paid among our creditors. He treads close to the Son of Man in life's highways, often doing heroic service in epidemics and benevolent service for the poor, and receives no man's "well done" and but scant recognition of his value. The world needs the physician more than it needs the professional preacher.—Rev. James B. Clayton, Baptist, Washington.

**Trusting In God's Will.**

"Blessed is the man whose delight is in the law of the Lord." Blessed is he who in every vicissitude and accident of life preserves in his heart an unalterable adhesion to God's will, through honor and dishonor, through evil report and good report, in sickness and in health, in riches and in poverty, in prosperity and adversity, in joy and sorrow, and who sees the loving hand of God and hears his paternal voice through the dense cloud of tribulation that envelops him. Happy, indeed, is he that has this short but comprehensive prayer often in his heart and on his lips: "Thy will, O Lord, be done!"—Cardinal James Gibbons, Roman Catholic, Baltimore.

**Inspiration a Great Need.**

Many a person dreams and works and is successful in life; others dream and do not work, and their life is a failure. It is, however, a person of the first type that claims the admiration of the world, the one who drinks in the undying inspiration and keeps life's purpose immortal. Let us rejoice when a great life wins and let us weep when a great life fails. Today if a paralyzing thought takes hold of you do not hang your head in defeat and say your work is done. Shame on such a conception! Away with such a vision! The great need of the world today is the undying source of inspiration. The bottom of the ladder is crowded with people waiting for some mysterious elevator, but the word is climb.—Rev. Allan A. Stockdale, Congregationalist, Boston.

**Reward of Service Here.**

The service of every man, however inconspicuous, is important. The plans of the so called geniuses of the world must be carried out by inconspicuous people. Another reward of the greatest value that comes invariably to true service, however inconspicuous, is new skill, deeper experience, larger knowledge and profounder wisdom. To any sincere man the greatest reward is not popularity. It is added power to do better service. Another larger reward of inconspicuous service is growth in character. True service increases manhood and womanhood. Since a man's real happiness depends more upon character than environment he can receive no finer reward, so far as his personal interest is concerned, than growth in character. The greatest reward of inconspicuous service is that it adapts us for the service of God in more influential positions.—Rev. Herbert S. Johnson, Baptist, Boston.

**Invest in the Stock of a PRODUCING GOLD MINE. It will pay you Large Returns on Your Investment.**

## Buy Mount Elliott Consolidated Mines Co. Stock

This Company owns in fee simple eleven patented mines (220 acres) in Big Big Mining District, Yavapai County, Arizona. These properties are equipped with three hoisting plants, a 10-stamp amalgamation and concentration mill; have been under continuous operation and development during the past two years.

The Mines and Mill will shortly be equipped with electric power and the capacity of present Mill doubled by the addition of 10 stamps, securing an increase of present earnings to approximately $150,000.00 per annum.

The affairs of the Company are in competent and conservative hands as represented by its Directors and officers—principally residents of Pittsburgh, Pa.

This stock we believe will advance to 50c or 60c within a very short time, and should sell at $1.00 or higher within next few months.

Buy it now "at the market." Write for further information.

## The Meat Boycott.

Probably not since the protest against the tax on tea in pre-Revolutionary times, has this country witnessed the spectacle of thousands of people abstaining from a necessary food product as a protest against prices. In colonial times the British government imposed a tax on tea which the American people resented by declining to use the tea and destroying all the imports that were available. One hundred and thirty-seven years later the American people, because of the power permitted sundry combinations of capital to control the distribution of food products, are pursuing the same tactics as their forefathers in refusing to be a party to the rapacity of arbitrary power. They have now reached a condition where they are willing to forego personal comfort in support of a principle.

Just as the Boston Tea Party foretold the deluge, so is the present movement portentious in sociology. When the people rise en masse and are ready to undergo self-sacrifice and personal denial in support of a principle, something is going to happen. The people are now thinking along one line, and when they do that the causes for the complaint are pretty sure to become thoroughly discussed and recognized. Then action will follow. It is the indifference of the people that has permitted this condition to prevail, and now that they are reaping the whirlwind, they are aroused to the dangerous pitch of resistence. This is the most hopeful sign of the times in the interests of civic betterment that has yet appeared, and results sooner or later are bound to be achieved.

## Why It Failed.

Because of a news article that has been going the rounds concerning an alleged project of Allegheny county to try to acquire a strip of Westmoreland county along the Allegheny river, some of our contemporaries have become solicitous lest Charleroi make another try for a new county embracing the Monongahela valley. They devote considerable space to showing how such a project is impossible under the constitution, yet between the lines one can read that they are not quite sure of the truth of their assertions. The Connellsville Courier, in commenting on the improbability of the matter, says: "Charleroi people tried this game once and failed miserably. We do not believe they will attempt it again, but if they do, they will undoubtedly fail again."

As the Courier states, the attempt was made and failed, but not miserably, because it was all but accomplished. Every requirement and condition had been met—constitutional provisions and all—and the project fell through solely on account of a political exigency. Unfortunately the fight between the late Senator Quay and Governor Hastings for political supremacy in the State was precipitated, and but for this Monongahela county, with Charleroi as the county seat, would have been an established fact. In his extremity Senator Quay needed the three Fayette county delegates in his State chairmanship fight, which the late Frank Fuller of Uniontown had to deliver, and he got them only on condition that Fayette county would be eliminated from the new county division. That was why the project failed at the time.

## A Good Move.

The move on the part of the borough school board and superintendent of schools to add another year to the high school course is a good one. The three year course has been good so far as it goes, but experience has demonstrated that it does not go quite far enough to meet all requirements. It does not require any effort or logic to convince the public and school patrons that a four year high school course will give more training and mental discipline to students when they need it most, and better equip them for the duties of life than a three year course.

In addition to preparing students to enter college, which is an important feature, owing to our proximity to W. and J. College, the extra year in the practical course is most valuable. Many people cannot afford to send their children to college, but they can take advantage of high school courses. This of itself is ample reason for extending the course. An extra year's training at the high school at the time it is given saves the student a whole lot of hard and costly experience later on in life. The move is a wise one, and the school board and the superintendent are to be congratulated on their progressive

## ELECTRIC SPARKS

If people quit eating meat they can hope for better health and their stomachs will not have to work overtime beating the tar out of a lot of gristle and tough, rare steak.

The help millionaires and millionaires daughters give to the working class is as a rule of the politic kind, to get a name for philanthropy.

After all has been said and done and Green elected more times than one can count, the official votes prove conclusively that Lewis is the president of the United Mine Workers.

Those who conduct the Spanish swindle game have nothing on some fellows that have infested Charleroi except in the daring audacity of demands.

First thing we know the government will take up a battle against the trusts and show them who's boss.

If some men were not so everlastingly generous they would not get in to three-fourths the trouble they do.

The popular nature of the debate of today should be, How can a working man live on small salary, and buy clothes for his wife, when he has to pay more than he earns for victuals?

## Will Sing at Monongahela.

Mrs James Schnelbach, one of Chareroi's best vocalists and a pupil of Porf. Knotts of Pittsburg has been secured as contralto in the Monongahela Presbyterian church choir. Mrs. Schnelbach will take her new position on Sunday, January 30.

### Worshiping a Turtle

At a place called Kotton on the French Ivory Coast, the natives believe that to eat or destroy a turtle would mean death to the guilty one or sickness among the family. The females of which there are plenty declare that years ago a man went to sea fishing in the night his canoe was thrown upon the beach empty. Three days afterward a turtle came ashore at the same place with the man on its back alive and well. Since that time they have never eaten or destroyed one of that species although they enjoy other species.

If one happens now to be washed ashore there is a great commotion in the town. First the women sit down and start singing and beating sticks. Next a small piece of white cloth (color must be white) is placed on the turtle's back. Food is then prepared and placed on the cloth, generally plantains, rice and palm oil. Then amid a lot more singing, dancing and antics of the fetich people it is carried back into the sea and goes on its way rejoicing.

### What Thieves Won't Steal

The last thing the woman did before leaving the flat was to put four rings in the clock on the mantel. "So thieves won't get them," she said.

"I should think that would be simply inviting thieves to run away with them," said her friend. "That is a handsome clock, and thieves like handsome clocks."

"They do," said the woman, "but they never will steal this clock. It ticks too loud. No wise thief will run away with a clock that goes like a thrashing machine. It isn't the alarm about his person that he is afraid of for he can stop the clock, but the occupants of the flat are likely to return before he gets safely away, and if a loud ticking clock is gone they will miss it the minute they step inside the door and [illegible] for his plunder."—New York Press.

WANTED—A position by a bright young lady as a clerk or anything similar. Am able to do light bookkeeping. Call 79 Mail office. 131t2p

## FALLING HAIR

### You Run No Risk When You Use This Remedy.

While many people in their prime doubt the assertion that "the hairs of our head are numbered," yet there is today many a man and woman fast reaching the point where this statement is literally brought home to them. If you suffer from irritation of the scalp, and from dandruff, or if your hair is falling out, do not wait until you reach the point where you can actually count how many hairs are left on your head.

Most cases of baldness are caused because the roots lack proper nutrition. In such cases there is a microbe which bores through the scalp along the line of the hair into the root and when it lodges there it begins to destroy the fatty matter around the hair root. When the scalp and hair roots are strong and healthy, it is impossible for these microbes to get in [illegible]

We can promise you that, if your hair is falling out, and you have not let it go too far, you can repair the damage already done by using "Rexall 93" Hair Tonic. It is scientific, cleansing, antiseptic, germicidal preparation, that destroys microbes, stimulates good circulation around the hair roots, promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water, and it is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall "93" Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices 50 cents and $1.00. Remember you can obtain it only at our store—The Rexall Store. John W. Carroll.

## DON'T BE OLD

### You will Not Be if You Follow this Simple Plan.

The woman of forty-five should be just in full bloom and her maturer beauty should resist the inroads of Time for many years thereafter. But this is possible only when the delicate skin of the face has been put in perfect condition. A sure healing and cleansing skin food, of which Crown Cream is undoubtedly the best on the market will work wonders, even with a neglected complexion, when used in connection with correct massage. And that is not only possible, but very easy, for the woman who owns the remarkable massage appliance called the Harlan Beauty Cup. This is a most ingenious vacuum appliance made of pure Para rubber and gives much better results than are possible with manipulation of the delicate skin texture by the fingers.

While every user of Crown Cream knows that it alone will work wonders, driving away wrinkles, restoring complexions to their youthful beauty and improving the health of the skin in every way, yet by the use of the Beauty Cup these desirable results are hastened and made permanent. Not only is massage made easy, but there is no danger of injury to a delicate skin from unskillful fingers. The Harlan Beauty Cups are sold by all good dealers at the regular price of 50c each and this is also the price of Crown Cream. If your dealer is not now supplied, they will be sent, prepaid, upon order direct to the Harlan Mfg. Co., Toledo, O. Enclose the exact price and give your dealer's name also.

## Skin Diseases Readily Cured by a Simple Home Treatment.

Persons who are suffering from blackheads, pimples, dandruff, ecezma, tetter, ring worm, or any form of skin disease, often ask the question, "is there a cure?"

We, Piper Bros. the druggist ssay, "yes, there is a cure." ZEMO, a scientific, clean, liquid preparation for external use, gives prompt relief and permanently cures every form of skin and scalp disease, whether on infants or grown persons. We will show you proof of many remarkable cures made by ZEMO and will gladly explain to you how you can be cured by this clean, simple home treatment. Piper Bros.

## Going to Tennessee.

Mr. and Mrs. Harvey F. Parsons leave Saturday morning for Lawrenceburg, Tenn., where they will make an extended visit with Mrs. Parsons' parents, Mr. and Mrs. Robert McNeal. They will for the present make their home in Tennessee. Mr. Parsons will still do bookkeeping and accountant work and take with him a month's work.

By a large rock on the northbound track near Bamord this morning the train due here at 8:18 o'clock was held back several minutes, arriving at about 9 o'clock.

# OWES HER LIFE TO

## Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was troubled with falling and inflammation, and the doctors said I could not get well unless I had an operation. I knew I could not stand the strain of one, so I wrote to you sometime ago about my health and you told me what to do. After taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier I am to-day a well woman."—Mrs. WILLIAM AHRENS, 988 W. 21st St., Chicago, Ill.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

**If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.**

# MORE BANK TALK

Did it ever occur to you why all good business men keep a checking account with a bank? We'll tell you. It enables them to keep their funds in a more secure place than the office safe. It gives them a better standing in the business world. It enables them to pay their bills by check, the returned check being an undisputable receipt.

Individuals find a checking account very convenient and a source of saving. Money in one's pocket is often spent on the spur of the moment, while one is disposed to think twice before drawing on his balance in the bank. Get the Savings Habit. Lay up for a rainy day. Start a bank account with the

## RELIGIOUS THOUGHT.

**Gems Gleaned From the Teachings of All Denominations.**

**Patience is as a case of armor around the heart, which deadens the blows inflicted on it.—Rev. J. B. Remensnyder, Lutheran, New York.**

**Valuable Essential.**

Self control is an essential to manhood, and the only way to change your disposition is to bridle your conduct.—Rev. Robert Gordon, Baptist, Milwaukee.

**Facing the Future.**

We should fearlessly face the future, knowing that God can turn even the follies and the failures of the past into a certain sort of good to us.—Rev. A. W. Snyder, Presbyterian, New York.

**Life's Foundation.**

Human life is itself the great tradition. It was handed down through parenthood, and when the parenthood is worthy the tradition is divine.—Rev. George A. Gordon, Congregationalist, Boston.

**Good Will.**

If you are sure of the good will in your own heart you will surely find it in God, in man, everywhere, and you will be able to see that the sun is shining, all nature is fair and friends are kind.—Rev. A. G. Singson, Presbyterian, Providence, R. I.

**Unending Joy.**

This life is but a time of preparation for a life of unending joy and bliss. This is the lesson we are to learn today—that heaven is to be gained only through suffering; unending joy is to be purchased with the coin of sacrifice. First the cross, then the crown.—Rev. David J. Toomey, Roman Catholic, Boston.

**The Golden Age.**

Eternity we recognize as our inexhaustible treasure house, and through our hope, as through a window, we catch glimpses that inspire. Its thought is inspiration; its gleam is strength. The golden age is not back yonder, but ever before us. We keep our eyes on the sun, and the shadows of earth are kept behind us, and our eyes glow with the sunlight. When hope fails the man dies.—Rev. Dr. Wallace Radcliffe, Presbyterian, Washington.

**Getting Right With God.**

Get right with God, then, eternal source of all joy, for it is his joy that you must share to be joyous in very truth. The God centered man is always happy, for God's will becomes the orbit in which he moves. As God's revelation in the sun is the center of the solar system, so is God's revelation in Christ the center of the human system. Let Jesus prescribe thine orbit, then thou art ever in the light of God's face.—Rev. Dr. Robert MacDonald, Baptist, Brooklyn.

**Value of the Physician.**

Few appreciate the ministry and value of the physician. His task is Christlike in self sacrifice, opportunity and often in its thankless return. The first to be called in danger, he is the last to be paid among our creditors. He treads close to the Son of Man in life's highways, often doing heroic service in epidemics and benevolent service for the poor, and receives no man's "well done" and but scant recognition of his value. The world needs the physician more than it needs the professional preacher.—Rev. James B. Clayton, Baptist, Washington.

**Trusting In God's Will.**

"Blessed is the man whose delight is in the law of the Lord." Blessed is he who in every vicissitude and accident of life preserves in his heart an unalterable adhesion to God's will, through honor and dishonor, through evil report and good report, in sickness and in health, in riches and in poverty, in prosperity and adversity, in joy and sorrow, and who sees the loving hand of God and hears his paternal voice through the dense cloud of tribulation that envelops him. Happy, indeed, is he that has this short but comprehensive prayer often in his heart and on his lips: "Thy will, O Lord, be done!"—Cardinal James Gibbons, Roman Catholic, Baltimore.

**Inspiration a Great Need.**

Many a person dreams and works and is successful in life; others dream and do not work, and their life is a failure. It is, however, a person of the first type that claims the admiration of the world, the one who drinks in the undying inspiration and keeps life's purpose immortal. Let us rejoice when a great life wins and let us weep when a great life fails. Today if a paralyzing thought takes hold of you do not hang your head in defeat and say your work is done. Shame on such a conception! Away with such a vision! The great need of the world today is the undying source of inspiration. The bottom of the ladder is crowded with people waiting for some mysterious elevator, but the word is climb.—Rev. Allan A. Stockdale, Congregationalist, Boston.

**Reward of Service Here.**

The service of every man, however inconspicuous, is important. The plans of the so called geniuses of the world must be carried out by inconspicuous people. Another reward of the greatest value that comes invariably to true service, however inconspicuous, is new skill, deeper experience, larger knowledge and profounder wisdom. To any sincere man the greatest reward is not popularity. It is added power to do better service. Another larger reward of inconspicuous service is growth in character. True service increases manhood and womanhood. Since a man's real happiness depends more upon character than environment he can receive no finer reward, so far as his personal interest is concerned, than growth in character. The greatest reward of inconspicuous service is that it adapts us for the service of God in more influential positions.—Rev. Herbert S. Johnson, Baptist, Boston.

## Invest in the Stock of a PRODUCING GOLD MINE. It will pay you Large Returns on Your Investment.

## Buy Mount Elliott Consolidated Mines Co. Stock

This Company owns in fee simple eleven patented mines (220 acres) in Big Big Mining District, Yavapai County, Arizona. These properties are equipped with three hoisting plants, a 10-stamp amalgamation and concentration mill; have been under continuous operation and development during the past two years.

The Mines and Mill will shortly be equipped with electric power and the capacity of present Mill doubled by the addition of 10 stamps, securing an increase of present earnings to approximately $150,000.00 per annum.

The affairs of the Company are in competent and conservative hands as represented by its Directors and officers—principally residents of Pittsburgh, Pa.

This stock we believe will advance to 50c or 60c within a very short time, and should sell at $1.00 or higher within next few months.

Buy it now "at the market." Write for further information.

## A BEAR STORY.

**The Picture the Amateur Photographer Did Not Wait to Get.**

The best bear story I ever heard, states a writer in Recreation, was told me by an amateur prospector, who might have stepped out of a comic weekly. He had made a big trip in the Siskiyous with no weapon save a nickel plated miner's pick.

"Have you seen much game?" I asked.

"None at all," he replied in his dry falsetto.

"No bear!" I exclaimed, knowing he had come right through Bear Camp.

"Oh, yes," he returned, "quite so. Now that you mention it I dare say that is what it was. Didn't occur to me, you know. I was so very angry, don't you see. I took no pains to identify the brute."

"Why, what did he do to you?"

"What did he do? Why, nothing, of course. You see, the little beggar ran and climbed up a stump. And he wouldn't come down so I could obtain a decent photograph of him. Sat up there half a day, fifty feet from the ground. Then his legs got tired holding on, I imagine, for he started in to squeal. And, do you know, the brute must have given me away, for pretty soon his mother, I suppose it was, came hurrying up, and I had to clear out. Four times as big as he, she was, I assure you."

"Did you run?" I asked, laughing.

"Oh, not at all; not at all," said he. "But still I thought it best not to remain." He paused and stroked his stubbly chin reflectively.

"By Jove," said he finally, "how very interesting! I should have thought to photograph the old one. She looked quite savage, don't you know."

"Such a picture would have been unique, to say the least," I replied.

"Quite so," said he.

## LANGUAGE OF MUSIC.

**The Manner in Which It Appeals to the Human Heart.**

To those musical agnostics who deny to music any beauties save those of design and maintain that of itself it cannot express ideas and feelings Redfern Mason makes appropriate reply.

But there is another side to the picture. What was it that made George II. rise in his place when they sang the "Hallelujah" chorus, thereby setting an example which is followed to this day? What was it in the finale of the fifth symphony that drew the Napoleonic veteran to his feet with the exclamation, "The emperor?" What sanctity in the Ambrosian hymns moved St. Augustine to tears?

During the wars of the French revolution it was forbidden, on pain of death, to play the "Ranz des Vaches" in the hearing of the Swiss soldiers, for so acute a longing for home did it bring upon them that they deserted in hundreds. Are we to think that there was no virtue in the music itself and that the effect produced was the outcome of purely accidental circumstances?

The Austrian government forbade Berlioz to play the "Rackoczy" march at Budapest, fearful of its effect on the inflammable Hungarians. Was the fire of patriotism kindled by the mere knowledge that the melody symbolized Hungary, or did the notes speak with tongues of flame?—Atlantic Monthly.

**Apfelsine.**

Messina furnished early in the nineteenth century a new word for the German language. It was from there that oranges were first shipped to Germany, and the fruit was known for a long time after its advent as "apfel aus Messina"—apple from Messina. After many years "apfel aus Messina" degenerated into "apfel Messina," and finally it became "apfelsine," the name by which oranges are still known among German speaking people.

**Santa Claus Hospital.**

Santa Claus hospital is the name to be given to the hospital for children which the women of Denver are raising money to erect. A good part of the money has been gathered by the children of the city under the leadership of Mrs. T. S. Hayden, president of the association, and Miss Adelaide Raynolds Haldeman, vice president. This children's branch of the Hospital association was named the Legion of Honor, and even babies of two and three years wore its white cross badge and took part in the entertainments employed to get the necessary funds.

## AMONG THE THEATERS

### The Coyle—Charleroi.

The Monte Carlo Girls Burlesque company, one of the best burlesque organizations traveling today, comprising some 20 comely maidens and a quartet of original comedians, are to play at the Coyle Theatre Monday evening, January 24. The entertainment this season will consist of two new burlettas entitled "The Merry Madcaps" and "Too Many Husbands," in each of which the entire company take part. The Monte Carlo Girls have earned an excellent reputation from one end of the country to the other for their original novelties, as well as for their pretty girls. The company numbers 25 people, among whom are that dancing wonder, Le Belle Myrtle, also Lew Golden, whose very appearance brings a smile to one's face; but he is so well known that just to mention his name is a guarantee of plenty of fun. Indications point to a large house.

### The Palace—Charleroi.

"The Female Reporter," was the title of a pleasing life motion picture at the Palace Theatre this week. The first scene pictured the news room of a busy daily newspaper where a "day's work is done in a minute." The Sunday editor orders the managing eidtor to have one of his best repoters detailed to burglarize a house, and to write up "how it feels." The manager picks his young lady reporter, and she is immediately onto the job. During the process she is interrupted in gathering up the "swag," after entering a residence, by a young man, an inmate, who telepones the police and orders the burglar—then invisible—to remain quiet at the point of a revolver. He finally discovers the burglar to be a girl, and becomes friendly. He lays down his revolver which the reporter picks up and when the "cops" arrive she covers the young fellow. Naturally the "cops" think he's the thief, and rush him to the station. There were many other interesting features, which, with illustrated songs and fine orchestral music, make most attractive exhibitions.

### The Nixon—Pittsburg.

At the Nixon Theatre on Monday evening the celebrated musical comedy "Three Twins" will be given its first presentation in Pittsburg and local theatre goers are fortunate in the fact that the original company of 70 people, headed by Clifton Crawford comes to the city. "Three Twins" in the past two seasons has been phenomenally successful in all sections of the country, three companies being engaged in the presentation of the piece. The organization which visits Pittsburg played for an entire season on Broadway, and has just completed a three months' run in Boston.

"Three Twins" is an adaptation of the farce "Incog," made by Charles Dickson, with a very tuneful score supplied by Karl Hoschna. The book tells a story of confused identities, three young men of closer ensemblance and rivals in matters amatory, become involved in the most ludicrous situations and thereby cause a whirl of fun-making that causes uproarous laughter. Mr. Crawford is one of the best light comedians in America and in the Gaietes offering has every opportunity to display his cleverness. The supporting company includes Jos. Allen, George Wilson, W. H. Vedder, George Stuart Christie, Ralph J. Locke, Mayme Gehrue, Daisy Leon, Ada Gordon and Della Niven. A chorus of fifty bewitchingly pretty girls is a feature of the production. Some of the music of "Three Twins" has secured a national vogue, notably the "Yama Yama" song. Other popular numbers are "The Fifth Avenue Brigade," "Ou-La-La" "The Girl Up There," "Little Miss Up-to-Date," "Cuddle Closer" and "The Goodnight Serenade." Matinees will be given on Wednesday and Saturday.

### The Duquesne—Pittsburg.

As a satire on society fads there is nothing more laughable than "My Friend From India," a delightful comedy in which the Harry Davis Stock company will be seen in the New Duquesne theatre next week.

The efforts of a wealthy pork packer's family to reak into the ranks of New Yorks "400" is the particular weakness of human nature at which H. A. DuSouchet, the author of the comedy, directed his satirical shafts. Strange fads have often been the means of creating social prominence and the unconventional head of the Kansas family, who has spent a fortune in trying to win a place for his daughter in the exclusive sets, finally hits upon a freak idea which nearly brings him the coveted prizes. The idea is furnished him by his son, a convivial chap, who, while on a spree one night, takes home with him a stranger. The son, in order to properly explain the stranger's presence, introduces him as his friend from India, a theosphist and a student of the occult.

It develops that the stranger is none other than a New York barber, but in order to help out his friend he continues to pose as the man from India.

Those who have seen the stock company in comedy need not be told that "My Friend From India" will be in good hands and that the New Duquesne theatre will resound with merry laughter at every performance next week. There will be a matinee every day. Seats are now on sale.

Desires to direct your attention to an extraordinary clearance sale to commence

## Saturday, January 22nd, 1910

and lasts until January 31, 1910

The most important sale of the season, every pair of shoes is guaranteed to be from our regular stock, and not bought with the idea of organizing a fake sale.

To tell the truth, I don't like a shoe sale—my last sale was in August, 1908—it disturbs the even trend of business conditions. But sometimes nature takes a hand in business affairs and alters these conditions. Since our last sale we have accumulated a lot of different sizes of different lines. The fall and winter season has left us with a stock too large to carry until next season. For the dealer, the winter is nearly over—for you it is only just beginning. Winter shoes will be worn from now until April.

The prices quoted here make a simple business proposition fully backed by our guarantee of fairness Our sales of the past have demonstrated to the public of Charleroi and vicinity that every claim made is fully carried out.
